

Driving decarbonization and digitalization. Together.

Project Manager Design

Job description

Manage Silicon/Solution project through full life cycle from inception to mass production

In your new role you will:

- Manage **Silicon/Solution** project through full life cycle from inception to mass production
- **Lead product development projects** with significant complexity, risk and noticeable impact for the
- WCS organization
- Look at the bigger picture, with business in mind, in order to **identify challenges** and work closely
- with your stakeholders to come-up with solutions
- Identify, scope, prioritize (drive, if necessary) **manufacturing improvement** in yield, quality, cost and
- capacity
- Conduct a forward-looking **risk management** to identify possible mitigation measures and/or backup
- scenarios
- Assume full responsibility for your projects by continuously assessing the progress and adjusting
- the project plan to ensure that goals are met even in the face of challenges. This also involves
- anticipating and proactively managing significant changes to the existing project agreement
- Form, guide and motivate diverse, cross-functional multi-site project teams
- Actively manage internal and external key stakeholders in an international environment, negotiate
- trade-offs and motivate others towards common goals
- Ensure that the project is in compliance with internal product development methodologies, rules and
- regulations at any stage of the project life-cycle

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
