

# Driving decarbonization and digitalization. Together.

## Staff Engineer Product Application Engineering HV

### Job description

Contributing to major product cross-functional teams for both product development and customer supporting

In your new role you will:

- Contributing to major product cross-functional teams for both **product development** and **customer supporting**.
- **Prototyping** and producing requirements definitions for new application and solutions.
- **Producing content** in support of new **GaN and controller/ gate driver's products**, including:
  - New product definition/ validation.
  - Hardware & System-level designs/ reviews including schematic, layout and component selection for demo boards/ EVBs/ reference designs/customer requests.
  - Deep analysis on products and find the value propositions.
  - Technical documentation and promoting materials such as datasheets, technical reference manuals, application notes and knowledge base articles.
  - Technical training for external customers and Infineon Sales, Marketing and Applications
- Enabling **customer design-in of products** and solutions through architectural collaboration, technical support, training and failure analysis.

### Profile

You are best equipped for this task if you have:

- Bachelor's degree above in Electrical Engineering or an equivalent field, experience on Charger/ Adapters, SMPS, AC/DC, Solar, ESS, inverter, Motor Drivers is preferred;
- Extensive knowledge of AC/DC and high voltage DC/DC system level designs with experience in testing, tuning, debugging and device selection;
- Strong understanding of one of the following category,

### At a glance

Location:

Job ID: **HRC0927238**

Start date: **as soon as possible**

Entry level: **3-5 years**

Type: **Full time**

Contract: **Permanent**

### Contact

[Shavin.Shashidhar@infineon.com](mailto:Shavin.Shashidhar@infineon.com)

- Strong understanding of switching power supplies (SMPS) and power supply topologies like PFC, LLC, hybrid flyback, active-clamp flyback, QR flyback, etc
- Strong understanding of Motor driver, Inverters;
- Strong understanding of Solar, Energy Storage, and Industrial Power Applications.
- Problem solver, and happy to help on customer's technical requirements;
- Be familiar with software tools such as Altium Designers, Mathcad/Matlab, PLECS, Simplis/Simatrix, Labview;
- Familiar with digital control with FPGA or MCU/ DSP will be a plus;
- Understanding the switching power component MOSFET, IGBT etc. GaN and SiC MOSFET experience is a plus;
- Teamwork, self-discipline/ motivated/ innovative and aggressive;
- Good verbal and written communication skills.

## Why Us

### **#WeAreIn for driving decarbonization and digitalization.**

As a global leader in semiconductor solutions in power systems and IoT, Infineon enables game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT. Together, we drive innovation and customer success, while caring for our people and empowering them to reach ambitious goals. Be a part of making life easier, safer and greener.

### **Are you in?**

### **We are on a journey to create the best Infineon for everyone.**

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
