## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The back-end segments Sensors, Chip Card and Chip Embedding allow the development of cross-collaborative innovations over the entire value chain from chip production to wafer testing, preassembly, package design and the development of new materials.
