

## Financial Data Analyst (f/m/div)\*

### Job description

Do you have a strong analytical mindset and financial acumen, combined with passion for technology and big data? Are you eager to enable and support the rapid growth of our power semiconductor business by offering innovative data analytics solutions of high quality? Excellent – here is your chance!

In your new job you will:

- **Work jointly with a global Finance team** related to our Power & Sensor Systems DCDC business line to generate transparency and insights on all relevant financial data through extraction, aggregation, analysis and visualization
- **Support a high quality and reliable financial forecast** by providing relevant information from heterogeneous data sources in an easy-to-use way
- **Drive the definition and creation of dashboards with financial summaries and business insights** for the management
- **Understand and consolidate requirements related to data availability /accessibility as well as data analytics** based on business needs
- **Define measures to realize the requirements identified** and partner up with central function to implement them
- **Be the interface to corporate financial data optimization projects** and all relevant corporate functions owning the financial data
- Play a **vocal role within the corporate financial data community**
- **Continuously improve all financial (data) processes** by applying innovative, creative and scalable data analytics solutions

### Profile

You have a proactive working style and technical expertise that fits perfectly in a multinational and dynamic environment. You are a hands-on and innovative person who is able to communicate effectively with different levels and functions of the organization. Your high-quality standards and agile mindset allow you to use your thorough analytics skills in order to produce valuable results for the business.

You are best equipped for this task if you have:

- A good data analytics skill set based on a **degree in Information Technology, Computer Science or related** field of study with a **passion for technology**
- **At least 3 years of relevant work experience** related to Business Intelligence and /or Data Engineering with **demonstrated data analytics and database skills** (i.e. Power BI, SAP, R, Python)

**Manuel Krebs**

Talent Attraction Manager

- **Strong analytical and financial acumen** including ability to absorb information quickly, evaluate data under different perspectives and understand correlation
- **Ability to decide under uncertainty** knowing the error bar
- **Profound understanding of MS Excel** (data cubes, Pivot tables, visualization using charts)
- **Hands-on experience in creating visualizations of (financial) data**, e.g. with Tableau based on SQL databases or cubes
- **Excellent oral and written communication skills** including executive level presentations
- **Team player mindset with strong interpersonal skills** and ability to work with various interfaces
- Excellent **English** skills, German or willingness to learn it as plus

We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group G (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>). The monthly salary is paid 14 times p.a. We offer a higher compensation depending on your expertise and skills.

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

**– Power & Sensor Systems (PSS) drives leading-edge power management, sensing and data transfer capabilities –**

Infineon PSS semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication. [Click here](#) for more information about working at PSS with interesting employee and management insights and an overview with more #PSSDreamJobs.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3900 colleagues from over 70 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria’s southernmost province, in close proximity to the Italian and Slovenian border. Due to its particular geographic location and the outstanding natural beauty of the region, Villach and the whole province of Carinthia have for generations been popular holiday destinations for people from all over the world. Living in Austria also has many social, health-care-related and economic perks. The country’s social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach benefits from its status as a “small town”, offering everyday living at affordable prices in an outstanding setting.
