

Staff Specialist Cyber Security – Consulting & Awareness (f/m/div)*

Job description

Are you passionate about cyber and information security topics? Do you enjoy consulting others and creating awareness about security? Infineon CYBER is growing and they want you to be part of the team! Apply now to join the international environment of a global leader in the semiconductor industry as a Staff Specialist Cyber Security in Porto.

As a Staff Specialist Cyber Security, you will be responsible for consulting, raising awareness and developing trainings on cyber security for internal customers.

In your new role you will:

- Contribute to the **cybersecurity project consulting service** by consulting during the whole project lifecycle;
- Work with our **in-house developed risk management tool** and provide feedback to support its improvement;
- **Facilitate meetings with stakeholders** to determine business impact assessments;
- **Participate in discussions** with IT and business Project Managers, project members, and vendors;
- Act as a **single point of contact for project managers** regarding other compliance topics such as data protection and export control;
- **Collaborate with the Subject Matter Experts** within the CYBER department;
- **Become a Project Manager** in different internal cybersecurity projects.

Profile

You have a hands-on approach to work and are able to take responsibility for your own area of expertise. You know how to solve problems with a proactive attitude that also allows you to step out of your comfort zone. Moreover, you have excellent communication and presentation skills and are able to establish a successful collaboration with others.

You are best equipped for this role if you have:

- A **degree in Computer Science, Information Technology** or another relevant subject;
- **Experience in cybersecurity initiatives, projects and activities** surrounding penetration testing;
