

Director Package Development (f/m/div)*

Job description

Do you like to bring in innovative ideas and push them until you see the final outcome? Would you like to lead a growing team of experts and be the interface to cross-divisional stakeholders and partners in business? The Package Concept team in IPC ISD is part of the whole product development cycle from requirement capturing to delivery release. With a variegated view on technical complex subjects we do not just implement solutions but also define new packaging technologies and concepts to ensure Infineon's competitive edge in the future. Sounds like the right challenge for you? Apply now!

In your new role, you will:

- Be responsible for the **global package development activities related to business line IPC ISD** in cooperation with backend development, OSAT and other divisions including many locations as Regensburg, Malacca, Seoul, and Singapore
- **Manage the IPC ISD package concept team**, including resource planning, hiring, training of experts, target setting and tracking, performance management as well as establishing competence landscape and competence network for IPC ISD
- **Be the owner of the package roadmap for IPC ISD**, strategy development and alignment with product lines and communication to IPC and IFX top management.
- Package development requirement capturing, consolidation and transfer to roadmap
- **Be the central interface of IPC ISD to the Infineon package development stakeholder network**
- Drive **market-oriented package innovation** in close collaboration with marketing and application engineering as well as external partners.
- Act in the roles of a **Project Owner** especially for package development projects
- **Steer innovation and feasibility studies** at BE DEV as IPC representative

Profile

You like to collaborate with multiple stakeholders, inspire others for your ideas and explain even complex issues in a clear and convincing manner. You understand customer's needs and turn them into realistic and challenging targets for your team. Your specialty is the combination of working accurately and constantly bringing in new ideas. With this unique mix you produce results with real added value. If there's a flaw in a process, you are the one to find it and to add up all the strengths and knowledge from your team in order to solve the problem.

You are best equipped for those tasks if you have:

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Industrial Power Control (IPC) empowers a world of unlimited green energy –

Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain.

As the global leader in power semiconductors, Infineon **IPC** delivers pioneering products, solutions and services for smart and efficient energy generation, transmission, storage, and use. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever it is needed.
