

Senior Engineer Embedded Software (f/m/div)*

Job description

Are you a strategic thinker that is committed and motivated to learning new languages and developing new skills? Are you excited to bring in your programming language and problem-solving knowledge? At Infineon Villach, we are looking for a passionate Software Engineer to grow our team for a semiconductor reliability test software ecosystem. Apply now and join us!

In this role, you should be a team player with a keen eye for detail and problem-solving skills. Further responsibilities include the improvement of functionality and usability of our embedded applications. The developed tools may be written in various languages.

Ultimately, the role of the Software Engineer is to build high-quality, innovative and performant software.

In your new role you will:

- **Integrate software components** into our test systems
- Extend, maintain and document our **test system software ecosystem**
- Recommend and **implement improvements**
- Help in **troubleshooting, debugging** and **upgrading** existing systems
- **Deploy programs** and **gather user feedback**

Profile

You are best equipped for this task if you have:

- A **BSc/MSc degree** in **Computer Science, Computer Engineering** or comparable
- **Experience** in **at least 2** of the following languages: **C/C++, LabVIEW, Python, Java, PHP**
- Knowledge of **Git version control system**
- Proficiency in **embedded software engineering tools**
- **Motivation to learn** new languages and technologies
- Excellent **communication skills** in **German** and **English**

This position is limited to 2 years. We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group F/G (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>). The monthly salary is paid 14 times p.a. We offer a higher compensation depending on your expertise and skills.

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The **KAI Competence Center for Automotive and Industrial Electronics** was founded in 2006 and is located in the Villach Technology Park. The focus of our research is the reliability of power semiconductors in automotive and industrial applications.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3700 colleagues from over 65 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a "small town", offering everyday living at affordable prices in an outstanding setting.
