

Senior Specialist Projects & Reporting

Job description

In your new role you will:

- Be part of the global FE reporting team and act as local key user for KPI reporting and reporting tools in Kulim.
- Provide Production Performance Reporting with high level data quality
- Consult and support manufacturing and other local functions with technical reporting and data expertise
- Translate FE manufacturing and business needs into technical specifications for IT/FI
- Work closely with global FE reporting team to define and create automated tool and dashboard solutions

Profile

You are best equipped for this task if you have:

- Minimum 3 years+ work experience in reporting, data analysis or data handling, preferable in Semiconductor manufacturing industry.
- Minimum a bachelor degree in computer science, business administration or engineering and other related fields
- Advanced proficiency with MS Office Excel and Power Point.
- Experience to work with data base / basic programming (e.g. Oracle, MS SQL, VBA) as well as know how on analysis tools like Tableau or Python are a plus.
- Strong analytical and effective problem-solving skills.
- Ability to do multi-tasking and to handle phases of high work load; including deliver high quality analysis and report in time for management review.
- Good communication (verbal & written) and interpersonal skills to work effectively with multiple stakeholders.
