

Senior Manager Product Marketing for Current Sensors (f/m/div)*

Job description

Do you want to be in the driver's seat when it comes to the future of eMobility? Do you want to play a major part in the expansion of our current sensor products? Is pushing projects with several stakeholders what you call "the perfect challenge"? Then joining our Product Marketing team might be a great opportunity for you. We are looking for a Senior Manager Product Marketing for Sensors who loves to do some ground-breaking work and helps us to set a perfect base for our automotive sensor products! Come and join to shape the automotive market of the future with us!

In your new role you will:

- **Define and implement marketing strategies and develop market models for current sensors** with key applications like: On Board Charger, DCDC converter, Power distribution, battery management, or traction inverters.
- **Define a business and customer strategy** to enhance our current sensor growth strategy.
- **Form and shape the Products of the future.** Give guidance within the process of requirement capturing. You own the responsibility for the Product Roadmap of your product family.
- **Accompany the development of the products as market expert and introduce them to the market and your customers.**
- **Drive market and competitor analysis and engage with key customers .** Developing future oriented solutions.
- **Own the pricing strategy and develop customer specific quotes** and business case calculations.
- **Collaborate on project development activities** and support development projects as a team player with your strong marketing competencies.
- Set up a **good and trustful relationship** with your main stakeholders to interact effectively with international Marketing & Sales, Technical Marketing, System Engineering and Program Management.

Profile

You are personally committed to the customer's concerns and award them a high priority. As a true team player cooperate across boundaries and contribute with your hands-on and driver mentality. Simultaneously you remain aware of the big picture even in complex situations and are able to take decisions under pressure. Last but not least with your structured working style you are able to handle abstract matters and communicate complex topics in a condensed form.
