

Solution Owner IT Business Senior Analyst Master Data (f/m/div)*

Job description

Are you looking for an position, where you can work on technical topics and support others? As a Solution Owner IT Business Senior Analyst you will work in an international team as operative responsible IT Solution Owner for the topic SAP Spare Parts Management. Sounds like you? Then take this opportunity and send us your resume!

In your new role you will:

- **Have the responsibility for the implemented SAP IT solutions for Spare Parts management** and the **associated interfaces**: you identify bugs and fix them
- **Moderate User Change Advisory Boards** – a regular meeting with Key Users
- Handle **change requests, incidents** and **problem tickets**
- Coordinate our **SAP solution provider** and closely collaborate with **Infineon IT colleagues**, who are also located abroad (e.g. Asia)
- **Stay in exchange** with **stakeholders** and **user groups**
- Support **current projects** and potentially lead sub-projects in the future

Profile

You are personally committed to your internal customers' concerns and give them a high priority while setting your own ambitious goals. You concentrate on your creativity and knowledge on solutions that add value. You drive ideas forward until the concrete implementation.

You are best equipped for this task if you have:

- A **degree** in **Computer Science, Business Informatics, Industrial Engineering** or a **related field of study**
- **SAP-Knowledge** gathered in 1-3 years work experience, as well of **SAP interface technologies**, for example IDOC based interfaces - you are able to work with SAP and are able to get used to new SAP modules easily
- Ideally **touchpoints** with the SAP module SAP MM (Material Management)
- The ability to **structure new and complex situations**: you **balance dependencies and priorities** and accompany ideas from **strategy until implementation**
- **Fluent English skills** (mandatory) - German is an advantage
