

## Frontend Capacity Alignment Planner (f/m/div)\*

### Job description

Are you looking for an exciting and varied international job that challenges you and offers you development opportunities? As a Frontend Capacity Alignment Planner for ATV products in the Digitalization and Supply Chain excellence group, you get the best of both worlds. You will supervise the weekly Frontend volume production in the supply chain and you optimize the capacities. Furthermore, this position offers the opportunity to drive digitalization projects with ATV internal and external partners. Take the chance for a change and apply now!

In your new role you will:

- **Take on responsibility for the Capacity Alignment Planning** (fronted production) of ATV products
- **Monitor and report critical demand vs supply gaps**, and drive investigation of root cause and action items for resolution
- **Implement allocation decisions in the case of production bottlenecks** on the various production lines
- **Develop digitalization methodologies and tooling within ATV** operations to improve productivity and decision-making support
- **Be part of projects within ATV and act as ATV representative** for companywide projects
- **Collaborate** with Production Logistic Planner in Frontend sites and Frontend Central Functions

### Profile

You cooperate across boundaries and appreciate the contributions of other people. Furthermore, you accept responsibility for decisions and for their positive or negative outcomes. You commit yourself to the results of your own team and the company as a whole.

You are best equipped for the job if you have:

- A **Degree in business administration** (or comparable), ideally with a focus on Supply Chain Management
- At **least 5 years of relevant work experience** in the field of supply chain management, capacity/production or production management in the semiconductor industry
- **Very good MS Office skills** and experience in APS systems (preferable Blueyonder suite)
