

Web designer (f/m/div)*

Job description

Do you have experience in user interface design and want to engage in a new professional challenge? Embrace a new role by joining us as a Web Designer and take your skills to the next level!

As a Web Designer you will work alongside an international team in order to provide web solutions to our company with focus on automotive specifics.

In your new role you will:

- Define, design and implement use-case specific web UIs and applications for the company's in-house product development flow
- Test solutions from external suppliers
- Work within a Scrum framework and participate in regular ceremonies

Profile

You have a structured working style and seek high quality standards for yourself and for others. You demonstrate strong communication skills, you are able to coordinate your work with colleagues, even across borders, and regularly share your insights with them. Moreover, you use all of your potential and capacity and challenge yourself and others to produce top performance.

You are best equipped for this role if you have:

- A degree in Informatics, Electrical Engineering or related
- Experienced in web development technologies and web UI design
- Proficiency with C#, .net, Python, SQL and JavaScript
- Web frameworks experience such as Angular or vue.js
- IIS Server and OpenSift library experience would be a plus

Benefits

- **Bucharest:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working hours at many sites; Home office options; Medical coverage; Health promotion programs; On-site gym with special rates; On-site

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
