Driving decarbonization and digitalization. Together.

Internship: Application Engineering (f/m/div)

Job description

Are you interested in the semiconductor industry and would like to learn more from our experienced application engineers? Infineon Connected Secure Systems (CSS) delivers security for a connected and protected present and future. We empower the world to connect with easy-to-integrate, smart and trusted solutions. You are currently studying Telematics, Electrical Engineering or a related subject and feel comfortable in laboratory environments? Then this is the perfect internship for you! Our team in Graz is looking forward to receiving your application!

In your new role you will:

- Support our application engineering team with **analyses** and **laboratory measurements** in the **field** of **RFID** and **UWB**
- Carrying out simple **measurements** and **laboratory activities** independently
- Creation and commissioning of **demos** and **application examples**
- Creation of **scripts** for test **automation** and **evaluation** of results

Further Information
Type of employment: Temporary / Part-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)
Duration: min. 6 months

Profile

You successfully meet the requirements, if you are a motivated and committed student from the field of **Telematics, Electrical Engineering** or similar. You are best equipped for this task if you additionally offer:

- Experience in dealing with precise **measurement technology** and **automation** of **measurements**
- At least basic knowledge of the programming and scripting languages **C++**, **C#** (Visual Studio), **Javascript** and **Python**
- Ability to be a good **team player** and willingness to work in an **international team**
- A structured and self-motivated **working style**
- Good communication skills in **English** and **German**

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor students, employment group D for master students (https://www.feei.at/wp-content/uploads/2023/05/minimum-salaries-white-collar-workers-2024.pdf).

Please attach the following documents (German or English) to your application:

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

– Connected Secure Systems (CSS) delivers security for the connected world –

The **Connected Secure Systems (CSS)** segment offers comprehensive systems for a secure, networked world with a portfolio built around reliable, trendsetting microcontrollers as well as wireless connectivity and security solutions. Over the past decades, CSS has developed microcontroller, Wi-Fi, Bluetooth and combined connectivity solutions (known as connectivity combos) and hardware-based security technologies. The products are used in a broad range of applications: from consumer electronics, IoT and home appliances to IT equipment, cloud security and networked cars all the way to credit and debit cards, electronic passports and IDs. With its leading technologies in the areas of computing, connectivity and security, CSS makes a decisive contribution to protecting today's and tomorrow's networked systems.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.
We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.
Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
