

Driving decarbonization and digitalization. Together.

Working Student: Corporate Communications: Studio & Video Productions (f/m/div)

Job description

You are creative and want to gain practical experience in our Communications & Public Policy (CP) team in a DAX40 company? Then apply and make life easier, safer and greener with us! We are looking forward to your application!

- **Take responsibility:** You will be responsible for the production and post-production of video content using professional equipment
- **Expand your horizons:** You will help with the conception, planning, organization and implementation of video shoots both in the headquarters studio and at other Infineon locations as well as at various events on site
- **Teamwork is dreamwork:** You support the team in daily tasks: including meetings, community management and communication with colleagues from the specialist departments

Profile

- **Study field:** You are currently studying film, digital media, communication sciences or similar
- **Content:** You have a feel for visual language and basic knowledge of creating social media content (e.g. YouTube, Instagram)
- **Way of working:** You enjoy working with organization and planning
- **Personality:** You are creative, reliable and independent
- **Interests:** You are open-minded about high-tech and interested in camera equipment and video production tools
- **Skills:** You have a good knowledge of MS Office applications and basic knowledge of Adobe applications
- **Language skills:** You have a very good command of German and English both written and spoken

Please attach the following documents to your application:

- CV in English
- Certificate of enrollment at university
- Latest grades transcript (not older than 6 months)
- High school report

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

At **Communications & Public Policy (CP)**, we strengthen Infineon's position as the world's leading semiconductor manufacturer for energy systems and IoT, targeting our internal and external stakeholders. Thereby, we significantly contribute to the company's vision of driving decarbonization and digitalization together.

In short, as a global CP team, that operates at Infineon's largest sites worldwide, we strengthen Infineon's reputation and internal identification. In an increasingly challenging economic, technological and political environment, we make Infineon's key role in innovative semiconductor technologies visible and create confidence in a sustainable future.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
