

## DevOps Engineer (f/m/div\*)

### Job description

We are looking for a DevOps Engineer for our Software team in Graz! You live up to high quality standards and strive for continuous improvement? You think ahead and like to develop and implement effective solutions? You enjoy working within an international environment and are eager to shape the future of mobility? Then apply now!

As a DevOps Engineer you are responsible for the progressive change and for modernizing the software development practices at our Design Center in Graz.

In your new job you will be responsible for the:

- **Development and maintenance of tools** supporting the **Software life cycle** (e.g. CI /CD, release automation)
- Development of a **Jenkins shared library**
- Creation of **Jenkins pipelines**
- **Automation of processes** using e.g. Python scripts, Conan packages and CMake
- **Support Software developers** in using DevOps tools

### Profile

As a true **team player**, you treat your colleagues with respect and trust. Your passion for continuous **improvement** and **innovation** drives you to achieve best results. You are a **good networker**, have an **analytical** and **structured working style** as well as strong **problem-solving** and **communication skills**.

You are best equipped for this task if you have:

- **Git, Linux, Docker** and **Conan** (C/C++ Package Manager) know-how
- Experience with **CI tools** (e.g. Jenkins, GitLab CI, GitHub Actions)
- Knowledge of **Python, Java/Groovy, C and/or C++**, **CMake**
- Understanding of **embedded software development** und **verification**
- High **interest in automation** (Build, Test, Deploy)
- **3+ years** of **professional experience**
- Excellent **English skills**

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry, employment group H (<https://www.feei.at/leistungen/informations-service/mindestlohne-und-gehalter-2020/>). The monthly salary is paid 14 times p.a. A higher payment is negotiable depending on your expertise and skills. Furthermore, Infineon offers additional employee benefits
