

IT Business Analyst for Environment, Health and Safety Solutions (f/m/div)*

Job description

As IT Business Analyst you will be part of our world wide operating team for the IT services "Environment, Health and Safety Solutions" and "Facility Management Solutions". In your new role, you will act as a consultant towards business and ensure smooth running of your IT applications. You will provide functional support as IT application owner for SAP and non SAP solutions within smaller or mid size IT projects.

In your new role, you will:

- Provide operational IT-support for **Environment, Health and Safety solutions** (SAP and non SAP) worldwide
- Act as **in-house consult** for your IT-applications
- Actively **support process** and system consolidation activities
- Create **solution proposals and blueprints** for change requests and project requests
- Act as **Project Manager** for small and midsize IT projects
- Insure **quality for customizing / development** delivered by external service providers
- Conduct in-house **customer trainings**

Profile

You are personally committed to the customer's concerns and award them a high priority. Furthermore, you clarify areas of responsibility, coordinate your work with colleagues, and regularly share your insights with them. In addition, you have a good sense for current trends and deduces potential improvements for your own team and department.

You are best equipped for this task if you have:

- A degree in **computer science, business informatics, business administration, business engineering, sustainable engineering** or similar
- At least 1 - 3 **years of professional experience**, preferably as project leader in IT-projects
- Good understanding of **databases** (e.g. Oracle, MS SQL Server, MySQL)
First experience with debugging and programming
- Preferably experience in SAP EHSM, Logistics or other modules - is a plus

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Information Technology department** has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1200 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
