

Internship: Digital Signal Processing modelling and testing

Job description

We are looking for students (f/m/div)* with the willingness to work in a challenging environment within a highly motivated international team. Apply now for this internship in Linz and support our team!

In this internship you get in touch with:

- Modelling of DSP functions in **Matlab**
- Extensive **testing** of **models** with regards to **input signals** and **configurations**
- Maintaining and extending the existing **regression testing setup** for **co-simulation** of **Matlab models** with **C++ reference models**
- Supporting the CE team with **regression reports** for **documentation**

A bachelor or master thesis during this internship is also possible.

Further information

Type of employment: Temporary / Part-time (Flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)

Duration: min. 6 months

Profile

You successfully meet the requirements if you are a motivated and committed student from the field of **Electrical Engineering**, **Mechatronics** or similar. You are best equipped for this task if you additionally have:

- Knowledge in **digital** and **analog signal processing**
- Solid knowledge in **MATLAB / Simulink system modelling**
- **MS Office**, **C++** and **Unix skills**
- A **self-motivated & proactive working style**
- Fluent **English** skills, **German** skills as a plus

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor students, employment group D for master students (<https://www.feei.at/wpcontent/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>).

Please attach the following documents (German or English) to your application:
