

Senior Project Manager - Rad Hard IC's

Job description

Do you have strong IC semiconductor industry experience, with at least 4 years of IC project management experience? If the answer is yes, apply today and join our growing IR HiRel team! In this role you will be assigned to a project design team based in Massachusetts with a sub team in other parts of the US and globally!

In your new role you will:

- As a **senior project manager** in the IRHIREL business unit, you will **manage projects of moderate complexity, risk, reach, and impact** for the **radiation hardened IC Development product portfolio**
- You will manage teams that are diverse in function, geographical location, time zone, method of team participation, expertise and influence, and shared amongst other project managers
- Support **projects that will include multiple functions across Infineon**, and potentially **sub-projects with subproject managers**
- Support projects that will require you to **manage export control, legal, financial elements**
- Be responsible for the **initiation, planning monitoring (risk management) execution/control, reporting, and closing** of the project **within schedule and budget** to the satisfaction of the Project Owner for meeting the project objectives

Profile

You are best equipped for this task if you have:

- At least 6 yrs of **IC semiconductor industry experience**, with at least 4 yrs of **IC project management experience**
- The ability to manage as many as 3 IC **product development** efforts in parallel
- Strong project management knowledge and experience for risk management, lessons learned, initiating, planning, executing, controlling. effective reporting required
- A strong focus on effective team building, teaming for best results, focusing on the customer, and building trust in your abilities as a project manager
- Strong proven project management skills, a technical degree, and some financial./business experience will be strongly preferred

Infineon **Power & Sensor Systems (PSS)** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. IR HiRel, part of Infineon PSS, is a leader in high-reliability, rad hard power management and RF solutions for space and other

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

IR HiRel Products Inc. is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your on-boarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

IMPORTANT NOTICE:

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
