

Manager Supply Chain Planning (f/m/div)*

Job description

Do you want to shape the future towards safer, greener and autonomous driving cars with Infineon's products? Do you enjoy moderating discussions and are able to communicate effectively on management level? Do you want to contribute to critical decisions of our company and constantly look for improvements to work more accurately and reliably? Then this opportunity as Manager Supply Chain Planning could just be the right fit for you! We drive the electrification and automation of cars by developing and manufacturing world-class power semiconductors. Do not miss this chance and apply now!

In your new role you will:

- **Optimize Demand and Supply Plans** of a specific product portfolio. You are responsible for the sales plan for the upcoming 6 months
- **Manage tight supply and customer allocation** in alignment with Product Marketing and other Stakeholders like CLM and Sales
- Trigger **discussions and improvement actions with Supply Chain Management heads, Capacity Planner and Project Manager** to solve and minimize the capacity issues related to the most critical allocation topics
- Drive **continuous improvements of the allocation management processes**, defining templates for decision and presentation
- **Represent Management on customer management calls** and prepare the respective presentations
- **Plan and maintain inventory targets** based on stock range objectives agreed within the organization
- **Ensure the production and delivery ability** of your product portfolio
- **Work out solutions with interdisciplinary teams**, e.g. Development, Product Marketing, Product Management, Quality Management and Frontend- /Backend manufacturing departments

This job is suitable for full- and part-time.

Profile

As Manager Supply Chain Planning, you always strive for high quality results. Furthermore, you take matters into your own hands and are able to unite all parties involved. Thanks to your strong analytical and communication skills, you successfully handle complex topics and communicate them clearly to the different stakeholders as well as top management. Lastly, you know how to remain aware of the big picture even in complex situations and take decisions despite uncertain circumstances.

You are best equipped for this task if you have:
