

Manager for Technical Standardization and Industry Associations (f/m/div)*

Job description

Are you a passionate communicator and supporter with a technical background? As a Manager Standardization & Associations you will communicate the increase contribution of standardization for the business success of Infineon as well as promote and connect Infineon's employees actively in standardization and associations topics.

In your new role you will:

- **Develop, promote and manage the framework for Standardization & Associations** within Infineon on corporate level
- **Implement participation of experts and managers** in SDOs to shape future standards in favor of Infineon
- **Engage and participate in standardization bodies** on behalf of Infineon
- **Be responsible for corporate membership tool** and improve that process
- Support the **Infineon standards access platform**
- **Monitoring markets and analysis about standardization activities** of competitors, customers and suppliers relevant for Infineon
- **Foster and lead new pilot projects** like „Standards meets Patents“ across the Infineon corporate level

Profile

You have a clear notion of how innovation contributes to the commercial success of the company and support the CP team in striving for the goal of “zero-defect”. Moreover, you actively look for the ideal solution and engage in professional debates with the relevant people, instead of accepting rash compromises.

You are best equipped for this task if you have:

- A degree in **Electrical Engineering, Physics, Mathematics, Industrial Engineering** or similar
- **5 years** experience in technical, business and ecosystem of the semiconductor industry
- **Knowledge of national and international standardization ecosystem** including regulation
- **Founded communication and stakeholder management skills** to explain complex issues to non-experts
- Intercultural sensitivity and **willingness to travel**
