Driving decarbonization and digitalization. Together.

Staff Specialist Finance Controlling (f/m/div)

Job description

Take the helm of financial digitalization at Infineon Finance External Wafer Manufacturing team, where your role as a Staff Specialist in Finance Controlling will redefine efficiency and strategic insight. As part of our visionary organization you will strengthen our global Finance team with strong business acumen, solid analytical skills and passionate drive for digitalization. Your exceptional communication skills will not just report figures but tell the compelling story behind them, driving Infineon's foundry strategy forward. Join us, where your vision will shape the future of finance.

In your new role, you will:

- Act as EWM Finance Interface for Business Cases, Make or Buy Analysis and T otal Cost of Ownership to stakeholders in EWM and FOP
- Consolidate EWM Forecast/Actuals and management reporting
- Create forward-looking analysis and scenarios and drive meaningful results for Infineon foundry strategy
- Drive reporting for the Next Level of Productivity activities
- Setup Yield Controlling tracking & reporting of Yields and analyzing the savings
- Coordinate and consolidate EWM L/TCR
- Support with KPI definition, tracking, and reporting, e.g. productivity
- Proactively drive the development of used finance tools

Profile

As a Staff Specialist Finance Controlling, you recognize and seize the potential for improving efficiency with dedication and determination. Furthermore, you inspire others with your ideas and explain even complex issues clearly and convincingly. Lastly, you demonstrate strong communication skills and know how to establish lasting relationships and networks.

You are best equipped for those tasks if you have:

- A degree in Business Informatics, IT, Economics, or similar, with a focus on Finance & Controlling
- 3-5 years of work experience in Finance & Controlling or related fields
- Excellent communication and presentation skills
- Expertise in visualization tools (e.g. Tableau, MS Office) to extract and visualize data for presentation and dashboards

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

The **External Wafer Manufacturing** organization (EWM) is responsible for end-to-end business and supplier relationship management with foundry partners. To ensure a resilient supply and timely technologies enablement, the organization unites commercial, technological and operational functions under one roof and oversees and steers all strategic and operational activities with foundries and test houses.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant 's experience and skills

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
