

Infineon at a Glance

Investor Fact Sheet - Q1 FY22

Our Company

Infineon Technologies AG is a world leader in semiconductor solutions with about 50,280 employees at more than 100 locations. We are leading in all of our major end markets: automotive, power semiconductors, and security ICs.

Our Mission

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future.

Our Segments

In the **Automotive** (ATV) segment, we develop products and solutions for classical applications while also actively shaping the keystone trends that define the industry such as electromobility and autonomous driving. Core applications: powertrain, ADAS, comfort electronics, security, infotainment.

In the **Industrial Power Control** (IPC) segment, we specialize in the efficient conversion of electric energy along the entire supply chain. Main applications: solar and wind, energy storage, industrial applications, traction, robotics, charging stations.

In the **Power & Sensor Systems** (PSS) segment, we focus on power semiconductors for power supplies, smart sensitivity as well as components for cellular infrastructure and mobile devices. Main applications: BLDC motors, charging stations, lighting systems, power management, IoT, high-reliability applications.

The **Connected Secure Systems** (CSS) segment specializes in hardware-based IT security solutions. CSS is also responsible for connectivity solutions as well as all non-automotive microcontrollers. Main applications: Authentication, governmental IDs, payment systems, mobile devices, consumer electronics, IoT.
