Relevant know-how, expertise and experience

Having served for many years as a management board member and CEO of a technology company that is currently a world leader in the areas for which he was responsible, Dr. Eder has extensive business expertise – in both operational and strategic matters. This includes relevant know-how in the areas of manufacturing and production, marketing and sales, human resources and organizational development as well as experience with capital markets, M&A, legal matters and compliance. The global operations of the voestalpine Group and the leading positions he has held in international associations have also contributed to Dr. Eder's excellent understanding of international topics and their correlations.
