

Dear Professor,

We are glad to invite you to the **SummerSchool about Test Development & Engineering with the headline “Challenge the limits”**. This event enables you and your students to establish a network and cooperation with Infineon Technologies and moreover a growing network with other participants.

Find more information online via: www.infineon.com/schools

Infineon SummerSchool will take place from 28th August – 01st September 2017 in Villach.

- ✓ We will care for your accommodation and the overnight costs.
- ✓ Within the SummerSchool we want to take the opportunity to have an exchange within the participants. Furthermore, we want to foster the networking between professors, students and Infineon experts.
- ✓ We would also be glad if you can recommend some talented students of your courses and promote the SummerSchool at your University.

I agree to give a lecture and provide my presentation materials which can be used during SummerSchool. (Please submit us your presentation material until 4th of August 2017.) I acknowledge that my presentation will be recorded during SummerSchool and this material will be used from Infineon for trainings use only.

Looking forward to seeing you in Villach!
Infineon SummerSchool-Team
