Company presentation

Infineon Technologies AG
November 2023
Driving decarbonization and digitalization. Together.

Semiconductors are crucial to solve the energy challenges of our time and shape the digital transformation.

This is why Infineon is committed to actively driving decarbonization and digitalization.

As a global semiconductor leader in power systems and IoT, we enable game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT.

We make life easier, safer, and greener. Together with our customers and partners. For a better tomorrow.
Infineon is a global leader in power systems and IoT

Global leader
in automotive, power management, energy efficient technologies and IoT

~58,600

¹ 2023 Fiscal year (as of 30 September 2023) | ² As of 30 September 2023
Infineon leading in power systems – mastering all three key materials

- Reliable multi sourcing of raw materials
- World-scale fabs
- Application understanding
- Packaging know-how and hybridization competence

Leadership in Power Systems across all materials and technologies

**Silicon**
Diode – MOSFET – IGBT – Driver – Controller

**Silicon carbide**
Diode – MOSFET

**Gallium nitride**
HEMT – Driver
Infineon leader in IoT – driving digitalization by serving strongly growing multi-application markets

**Products:** MCU – Connectivity (Wi-Fi, BLE, NFC) – Sensors – Security – Power supply & switches

Infineon is globally positioned with its network of Frontend and Backend manufacturing facilities

17 locations¹

¹ As of 30 September 2023  Frontend  Backend
Our global Research and Development activities

About 12 percent of Infineon’s annual revenue goes into Research and Development (R&D). In fiscal year 2023, R&D investments amounted to about 2 billion euros.

29,700 patents and patent applications in the overall portfolio show a high level of innovative strength and long-term competitiveness. In fiscal year 2023 alone, Infineon registered about 1,850 new patent applications.

Numerous innovative ecosystems with tech companies, universities and research institutes are of great importance to Infineon.

69\(^1\) sites in 25 countries and regions:

**Americas**
- Guadalajara, Tijuana (Mexico); Andover, Austin, Chandler, Colorado Springs, El Segundo, Irvine, Leominster, Lexington, Lynnwood, Morrisville, Murrieta, Portland, San Diego, San José and Warwick (all USA)

**Asia Pacific**
- Bangalore (India); Batam (Indonesia); Cheonan and Seoul (both Korea); Ipoh, Kulim, Melaka and Penang (all Malaysia); Muntinlupa (Philippines); Singapore (Singapore); Nonthaburi (Thailand)

**Greater China**
- Chengdu, Shanghai, Shenzen, Wuxi and Xi’an (all Mainland China); Hsinchu and Taipei (both Taiwan)

**Japan**
- Nagoya, Sendai, Tokyo (all Japan)

**Europe**
- Graz, Klagenfurt, Linz and Villach (all Austria); Herlev (Denmark); Le Puy-Sainte-Réparade (France); Augsburg, Dresden, Duisburg, Erlangen, Ilmenau, Langen, Neubiberg, Regensburg, Soest and Warstein (all Germany); Budapest and Cegléd (both Hungary); Cork and Dublin (both Ireland); Netanya (Israel); Padua and Pavia (both Italy); Nijmegen (Netherlands); Brasov, Bucharest and Iasi (all Romania); Belgrad (Serbia); Bristol and Redhill (both UK); Lviv (Ukraine)

\(^1\) as of 30 September 2023.
Responsible action, sustainable profitable growth

Infineon ranks among the most sustainable companies in the world

- Sustainability at Infineon includes social, ecological, and economic values
- Infineon was one of the first semiconductor companies to voluntarily commit to the Ten Principles of the UN Global Compact
- Infineon meets global societal challenges such as climate protection, energy efficiency, and resource management with innovative products
- Infineon's climate target is to become carbon-neutral by 2030\(^1\). Emissions are to be cut by 70 percent over the 2019 calendar year\(^2\) levels by 2025
- External evaluation of the commitment:
  - MSCI ESG Research rates Infineon with AA for the fifth consecutive year
  - Included in the Dow Jones Sustainability Index family for the thirteenth year in a row
  - Awarded Gold status for six years in a row and in 2023 for the second time Platinum status by EcoVadis

---

1 In terms of Infineon’s direct and indirect energy- and heat-related emissions (Scope 1 and 2). 2 Including Cypress.

For further information: Infineon Sustainability Report
Infineon is committed to binding CO₂ reduction targets

1 Carbon neutrality¹ by 2030 – primarily by avoiding emissions

2 Realization of 70 percent of the required savings and compensations by 2025

¹ Carbon neutrality is defined in terms of Scope 1 and Scope 2 emissions.
Corporate Social Responsibility: We create a net ecological benefit

In various areas of application (automotive electronics, industrial drives, photovoltaics as well as wind energy), our products can achieve CO₂ savings during their lifetime of around 117 million tons of CO₂ equivalents. Compared with the European electricity mix, this is around 12.5 percent of the annual net electricity production of the European Union.

CO₂ burden
of 3.4 million tons
CO₂ equivalents

Ratio around 1:34

CO₂ savings
of 116.6 million tons
CO₂ equivalents

Net ecological benefit: CO₂ emissions reduction of more than 113 million tons

1 This figure takes into account manufacturing, transportation, own vehicles, travel, supplier-specific emissions, water/waste water, direct emissions, energy consumption, waste etc. as well as direct and indirect energy-related emissions by manufacturing service providers. It is based on data collected internally and publicly available conversion factors and relates to the 2023 fiscal year.

2 This figure is based on internally established criteria, which are described in the explanatory notes. The figure relates to the 2022 calendar year and takes into account the following application areas: automotive electronics, industrial drives, photovoltaics as well as wind energy. CO₂ savings are calculated based on the potential savings generated by technologies in which semiconductors are used. The CO₂ savings are allocated based on Infineon’s market share, semiconductor share and the lifetime of the technologies concerned, based on internal and external experts’ estimations. Despite the fact that carbon footprint calculations are subject to imprecision due to the complex issues involved, the results are nevertheless clear.
Infineon's employees create a better future together

At Infineon, 58,600¹ people from over 100 countries work together around the world to make life easier, safer, and greener. For more information, please visit www.infineon.com/career

Preethi Baran
Senior Director, Field Sales, in Livonia

"It's motivating to work with our customers to transform our mobility through innovation, safety and security."

Thomas Wrzesinsky
Maintenance Technician, in Dresden

"We maintenance technicians keep production moving. I appreciate the teamwork: when everyone pulls together to find the error and to get the equipment running again."

Marcel Kuba
Director, Field Application Engineering, in Munich

"The acquisition of Cypress enables Infineon now to offer complete best in class system solutions for new automotive applications."

Dr. Pamela Lin
Senior Manager Data Scientist Analytics, in Singapore

"It's amazing how we use advance data analytics and AI techniques to create intelligent systems for solving complex business problems and driving manufacturing efficiency."

Our competitive advantage: Differentiating as quality leader

Our path
We do what we promise.
That's quality made by Infineon.

Our aspiration
Zero defect regarding the committed
- Functionality  -  Time
- Reliability    -  Volume and cost

Our foundation
International standards such as
ISO 9001, IATF 16949, AS 9100,
IEC 17025, ISO 26262
Business Continuity: Integrated management

- Real estate and facility management
- Loss and fraud investigations
- Environmental protection, sustainability and climate protection
- Business Continuity Planning

- Asset protection

- Corporate Social Responsibility
- Cyber and Information Security
- Data Protection and Privacy
- Export compliance

**Business Continuity**
- ISO 14001\(^1\) ISO 45001\(^1\)
- ISO 22301\(^2\) ISO 50001\(^3\)

\(^1\) ISO 14001/45001 worldwide certification scheme.
\(^2\) ISO 22301 certified in Villach (Austria) and Dresden (Germany).
\(^3\) ISO 50001 certified at largest European manufacturing sites and corporate headquarters Campeon (Germany).
\(^4\) Different certifications (e.g. TISAX).
