

Ready for Mission Future.

The power to make life easier, safer and greener.

17 Sept./21
1:30 pm CET

Invitation

Opening of Infineon's new high-tech chip factory, Villach Austria

We are ready! Are you ready to start Mission Future?

Infineon opens its new high-tech chip factory for power electronics on 300-millimeter thin wafers at the Villach site and expands the production capacities for energy-saving chips that are in high demand worldwide. They make a tangible contribution to achieving climate targets and enable the energy transition. This major investment of 1.6 billion euros is a clear signal for the high-tech location Europe.
