

Press Release

Following a successful 2018 fiscal year Infineon confirms its targets for revenue, Segment Result and investments that were raised in June. Further dividend increase planned

- **Q4 FY 2018: Revenue € 2,047 million, plus 5 percent quarter-on-quarter; Segment Result € 400 million; Segment Result Margin 19.5 percent**
- **FY 2018: Revenue € 7,599 million, plus 8 percent year-on-year, Segment Result € 1,353 million, Segment Result Margin 17.8 percent**
- **Outlook for FY 2019: Based on an assumed exchange rate of US\$ 1.15 to the euro, year-on-year revenue growth of 11 percent (plus or minus 2 percentage points) and Segment Result Margin of 18 percent at mid-point of revenue guidance**
- **Outlook for Q1 FY 2019: Based on an assumed exchange rate of US\$ 1.15 to the euro, quarter-on-quarter revenue decrease of 4 percent (plus or minus 2 percentage points) due to seasonal factors and Segment Result Margin of 17.5 percent at mid-point of revenue guidance**
- **Proposal to increase dividend to 27 cents per share**

Neubiberg, Germany, 12 November 2018 – Infineon Technologies AG today reported results for the fourth quarter of its 2018 fiscal year (period ended 30 September 2018).

"The fourth quarter was a strong finish to an outstanding fiscal year. For the first time, our current business segments have generated over 2 billion euros of revenue in one single quarter," stated Dr. Reinhard Ploss, CEO of Infineon. "The digitalization and electrification of many aspects in our daily life are resulting in sustained high demand for our products and solutions. We begin the 2019 fiscal year with well-filled order books and aim to continue growing faster than the market as a whole. We are keeping a vigilant eye on political and economic developments and will react appropriately if and when the need arises."

Group performance in fourth quarter of 2018 fiscal year

In the fourth quarter of the 2018 fiscal year, revenue grew by 5 percent from € 1,941 million to € 2,047 million quarter-on-quarter. Due to healthy demand and a somewhat stronger US dollar, revenue rose in Automotive (ATV), Industrial Power Control (IPC) and Power Management & Multimarket (PMM) and declined slightly for the Digital Security Solutions (DSS) segment¹.

In the fourth quarter, the gross margin came in at 39.8 percent, compared to 38.2 percent in the preceding three-month period. Included therein are acquisition-related depreciation and amortization as well as other expenses totaling € 17 million, mainly relating to the acquisition of International Rectifier. The adjusted gross margin improved from 39.2 percent to 40.6 percent quarter-on-quarter.

The Segment Result for the three-month period amounted to € 400 million, compared to € 356 million one quarter earlier. The Segment Result Margin improved from 18.3 percent to 19.5 percent quarter-on-quarter.

¹ With effect from 1 October 2018, the "Chip Card & Security" segment changed its name to "Digital Security Solutions". The change in name has no impact on Infineon's organizational structure, strategy or scope of business.

investor.relations@infineon.com

The non-segment result in the fourth quarter was a net loss of € 30 million, compared with a net loss of € 37 million in the previous quarter. The fourth quarter non-segment result comprises € 18 million of cost of goods sold, € 14 million of selling, general and administrative expenses and € 2 million of research and development expenses, which were partly offset by a net positive contribution of € 4 million from other operating income and expenses.

Operating income improved from € 319 million to € 370 million quarter-on-quarter. Fourth-quarter income tax expense totaled € 54 million, up from € 49 million in the third quarter. Income from continuing operations increased to € 300 million, compared with € 254 million for the preceding three-month period.

The result from discontinued operations moved from a positive amount of € 17 million to a negative € 159 million, whereby the fourth-quarter figure includes the impact of increasing provisions relating to the lawsuit brought by the Qimonda insolvency administrator for the alleged activation of a shell company and liability for the impairment of capital. The adjustment to provisions was based on an interim report submitted in September by the court-appointed expert on his preliminary assessment of the value of Infineon's contributions-in-kind to Qimonda.

The loss from discontinued operations caused net income to decrease from € 271 million to € 141 million quarter-on-quarter.

Fourth-quarter earnings per share from continuing operations (basic and diluted) amounted to € 0.27, up from € 0.22 in the previous quarter. Adjusted earnings per share² (diluted) amounted to € 0.28, compared to € 0.24 in the third quarter, mainly due to the improved Segment Result.

Investments – which Infineon defines as the sum of purchases of property, plant and equipment, purchases of intangible assets and capitalized development assets – amounted to € 417 million in the fourth quarter of the 2018 fiscal year, compared to €280 million in the preceding three-month period. Depreciation and amortization increased from € 219 million to € 226 million quarter-on-quarter.

² Adjusted net income and adjusted earnings per share (diluted) should not be seen as a replacement or superior performance indicator, but rather as additional information to the net income and earnings per share (diluted) determined in accordance with IFRS. The detailed calculation of adjusted earnings per share is presented on page 9.

Free cash flow³ from continuing operations improved to € 227 million. In the third quarter of the 2018 fiscal year, free cash flow had totaled € 192 million. Net cash provided by operating activities from continuing operations increased from € 462 million to € 641 million quarter-on-quarter.

The gross cash position fell from € 2,621 million to € 2,543 million in the course of the fourth quarter. The net cash position improved from € 792 million to € 1,011 million during the same period.

Proposed dividend for 2018 fiscal year: € 0.27 per share

In recent years, Infineon has increased the dividend in several steps, from € 0.10 per share for the 2010 fiscal year to € 0.25 per share for the 2017 fiscal year. In light of favorable business developments over the past fiscal year and the positive outlook for the 2019 fiscal year, a proposal will be made to shareholders at the Annual General Meeting 2019 to increase the dividend for the 2018 fiscal year by a further 2 cents to € 0.27 per share. Infineon's dividend policy is to allow shareholders to participate appropriately in growing earnings or, in times of flat or declining earnings, to at least maintain the dividend at a constant level.

Outlook for first quarter of 2019 fiscal year

Based on an assumed exchange rate of US\$ 1.15 to the euro in the first quarter of the 2019 fiscal year, Infineon forecasts a quarter-on-quarter revenue decrease of 4 percent (plus or minus 2 percentage points) due to seasonal factors. At the mid-point of revenue guidance, the Segment Result Margin is expected to come in at about 17.5 percent.

Outlook for the 2019 fiscal year

Based on an assumed exchange rate of US\$ 1.15 to the euro, Infineon expects revenue growth in the 2019 fiscal year of 11 percent (plus or minus 2 percentage points) and a Segment Result Margin of about 18 percent at the mid-point of revenue guidance. Revenue growth in the Automotive segment is expected to exceed the Group average. The Power Management & Multimarket segment is predicted to grow roughly in line with the Group average while the Industrial Power Control segment is likely to report growth slightly below the Group average. Due to adverse market conditions, revenue for the Digital Security Solutions segment is expected to be down by a mid-single digit percentage year-on-year.

³ For definitions and the calculation of free cash flow and of the gross and net cash position, please see page 13.

Investments in property, plant and equipment, intangible assets and capitalized development costs totaling approximately € 1.6 to 1.7 billion are planned for the 2019 fiscal year. In addition to investments that correlate directly with revenue growth, this figure also covers previously announced investments in buildings, including the construction of a cleanroom for the new 300-millimeter manufacturing facility in Villach amounting to around € 200 million. Furthermore the projected investment outlay comprises around € 100 million for potential revenue upsides and structural changes, for which overall a low triple-digit million sum has already been announced in June.

Depreciation and amortization are expected to be in the region of € 1 billion, whereby about € 90 million of that amount are related to amortization resulting from purchase price allocation mainly of International Rectifier.

€ 120 million to € 127 million quarter-on-quarter. The Segment Result Margin came in at 14.6 percent, up from 14.4 percent one quarter earlier.

IPC segment revenue grew by 3 percent to € 361 million in the fourth quarter of the 2018 fiscal year, compared with € 349 million in the preceding three-month period. In particular, industrial drives and wind power saw increasing demand. Segment Result improved from € 71 million in the third quarter to € 73 million in the final quarter of the 2018 fiscal year. The Segment Result Margin came in at 20.2 percent, compared to 20.3 percent in the previous quarter.

PMM segment revenue grew from € 580 million to € 651 million quarter-on-quarter. The 12 percent increase was driven primarily by further growth in demand for DC-DC and AC-DC power supplies, which the segment was better able to meet due to continuous capacity expansion and some seasonal increase in demand for products for mobile devices. Segment Result improved from € 137 million to € 181 million quarter-on-quarter. The Segment Result Margin came in at 27.8 percent, up from 23.6 percent in the previous three-month period.

DSS segment revenue declined from € 175 million to € 163 million quarter-on-quarter. Whereas revenue from authentication grew significantly due to seasonal factors, demand in payment and government ID was lower quarter-on-quarter. Segment Result for the fourth quarter amounted to € 24 million, compared to € 29 million one quarter earlier, while the Segment Result Margin came in at 14.7 percent compared with 16.6 percent in the preceding quarter.

Analyst telephone conference and press conference

Infineon will host a telephone conference call including a webcast for analysts and investors (in English only) on 12 November 2018 at 9:30 am (CET), 3:30 am (EST). During the call, the Infineon Management Board will present the Company's results for the fourth quarter of the 2018 fiscal year and the outlook for the first quarter and the 2019 fiscal year. In addition, the Management Board will host a live press conference with the media at 11:00 am (CET), 5:00 am (EST). It can be followed over the Internet in both English and German. Both conferences will also be available live and for download on Infineon's website at www.infineon.com/investor.

Segment Revenues and Segment Results

Segment Result is defined as operating income (loss) excluding the following: the net amount of asset impairments and reversals thereof (excluding capitalized development costs); the impact on earnings of restructuring and closures; share-based compensation expense; acquisition-related depreciation/amortization and other expenses; gains (losses) on sales of assets, businesses, or interests in subsidiaries as well as other income (expense), including litigation costs.

Reconciliation of Segment Result to Operating Income

€in millions	3 months ended			12 months ended	
	30 Sep 18	30 Jun 18	30 Sep 17	30 Sep 18	30 Sep 17
Segment Result	400	356	328	1,353	1,208
Plus/minus:					
Impairments on assets (excluding capitalized development costs) including assets classified as held for sale, net of reversals ¹	4	-	(2)	(7)	(5)
Impact on earnings of restructuring and closures, net	-	-	-	-	(3)
Share-based compensation expenses	(3)	(3)	(5)	(13)	(13)
Acquisition-related depreciation/amortization and other expenses	(29)	(31)	(33)	(118)	(153)
Gains (losses) on sales of assets, businesses, or interests in subsidiaries, net	1	4	(14)	272	(15)
Other income and expenses, net	(3)	(7)	(2)	(18)	(36)
Operating income	370	319	272	1,469	983

¹ Without impairments/reversals of impairments on capitalized development costs since 1 October 2017, but impairments in connection with the sale of the largest part of the Radio Frequency Power Components business to Cree, Inc. are included here. Previous periods figures were not adjusted.

Reconciliation to adjusted earnings and adjusted earnings per share – diluted

Earnings per share in accordance with IFRS are influenced by amounts relating to purchase price allocations for acquisitions (in particular International Rectifier) as well as by other exceptional items. To enable better comparability of operating performance over time, Infineon computes adjusted earnings per share (diluted) as follows:

€in millions (unless otherwise stated)	3 months ended			12 months ended	
	30 Sep 18	30 Jun 18	30 Sep 17	30 Sep 18	30 Sep 17
Net income from continuing operations attributable to shareholders of Infineon Technologies AG – diluted	300	254	177	1,218	791
Plus/minus:					
Impairments on assets (excluding capitalized development costs) including assets classified as held for sale, net of reversals ¹	(4)	-	2	7	5
Impact on earnings of restructuring and closures, net	-	-	-	-	3
Share-based compensation expense	3	3	5	13	13
Acquisition-related depreciation/amortization and other expenses	29	31	33	118	153
Losses (gains) on sales of assets, businesses, or interests in subsidiaries, net	(1)	(4)	14	(272)	15
Other income and expense, net	3	7	2	18	36
Tax effects on adjustments	(36)	(8)	(10)	9	(49)
Revaluation of deferred tax assets resulting from the annually updated earnings forecast	24	(9)	32	5	-
Adjusted net income from continuing operations attributable to shareholders of Infineon Technologies AG – diluted	318	274	255	1,116	967
Weighted-average number of shares outstanding (in million) – diluted	1,134	1,133	1,134	1,134	1,134
Adjusted earnings per share (in euro) – diluted ²	0.28	0.24	0.22	0.98	0.85

¹ Without impairments/reversals of impairments on capitalized development costs since 1 October 2017, but impairments in connection with the sale of the Radio Frequency Power Components business to Cree are included here. Previous periods figures were not adjusted.

² The calculation of the adjusted earnings per share is based on unrounded figures.

Adjusted net income and adjusted earnings per share (diluted) should not be seen as a replacement or superior performance indicator, but rather as additional information to the net income and earnings per share (diluted) determined in accordance with IFRS.

Reconciliation to adjusted cost of goods sold and gross margin

The cost of goods sold and the gross margin in accordance with IFRS are influenced by amounts relating to purchase price allocations for acquisitions (in particular International Rectifier) as well as by other exceptional items. To enable better comparability of operating performance over time, Infineon computes the adjusted gross margin as follows:

€in millions	3 months ended			12 months ended	
	30 Sep 18	30 Jun 18	30 Sep 17	30 Sep 18	30 Sep 17
Cost of goods sold	1,233	1,199	1,137	4,714	4,442
Plus/minus:					
Share-based compensation expense	(1)	(1)	(1)	(2)	(2)
Acquisition-related depreciation/amortization and other expenses	(17)	(17)	(19)	(67)	(89)
Other income and expense, net	-	-	-	-	-
Adjusted cost of goods sold	1,215	1,181	1,117	4,645	4,351
Adjusted gross margin	40.6%	39.2%	38.6%	38.9%	38.4%

Adjusted cost of goods sold and the adjusted gross margin should not be seen as a replacement or superior performance indicator, but rather as additional information to cost of goods sold and the gross margin determined in accordance with IFRS.

Revenues and Segment Result for the three and twelve months ended 30 September 2018 and 2017

Effective 1 October 2018, the "Chip Card & Security" segment changed its name to "Digital Security Solutions". The change in name has no impact on Infineon's organizational structure, strategy or scope of business.

Consolidated Statement of Cash Flows

Gross and Net Cash Position

The following table reconciles the gross cash position and net cash position (i.e. after deduction of debt). Since some liquid funds are held in the form of financial investments, which for IFRS purposes are not considered to be "cash and cash equivalents", Infineon reports on its gross and net cash positions in order to provide investors with a better understanding of Infineon's overall liquidity. The gross and net cash position is determined as follows from the Consolidated Statement of Financial Position:

€in millions	30 Sep 18	30 Jun 18	30 Sep 17
Cash and cash equivalents	732	771	860
Financial investments	1,811	1,850	1,592
Gross cash position	2,543	2,621	2,452
Less:			
Short-term debt and current maturities of long-term debt	25	319	323
Long-term debt	1,507	1,510	1,511
Total debt	1,532	1,829	1,834
Net cash position	1,011	792	618

Free Cash Flow

Infineon reports the free cash flow figure defined as net cash provided by and/or used in operating activities and net cash provided by and/or used in investing activities, both from continuing operations, after adjusting for cash flows related to the purchase and sale of financial investments. Free cash flow serves as an additional performance indicator, since Infineon holds part of its liquidity in the form of financial investments. This does not mean that the free cash flow calculated in this way is available to cover other disbursements, since dividend, debt-servicing obligations and other fixed disbursements are not deducted. Free cash flow should not be seen as a replacement or superior performance indicator, but rather as an additional useful piece of information over and above the disclosure of the cash flow reported in the Consolidated Statement of Cash Flows, and as a supplementary disclosure to other liquidity performance indicators and other performance indicators derived from the IFRS figures. Free cash flow includes only amounts from continuing operations, and is derived as follows from the Consolidated Statement of Cash Flows:

€in millions	3 months ended			12 months ended	
	Sep 30, 18	Jun 30, 18	Sep 30, 17	Sep 30, 18	Sep 30, 17
Net cash provided by operating activities from continuing operations	641	462	616	1,571	1,728
Net cash used in investing activities from continuing operations	(379)	(389)	(479)	(1,163)	(1,131)
Purchases of (proceeds from sales of) financial investments, net	(35)	119	112	210	(3)
Free Cash Flow	227	192	249	618	594

DISCLAIMER

This press release contains forward-looking statements about the business, financial condition and earnings performance of the Infineon Group.

These statements are based on assumptions and projections resting upon currently available information and present estimates. They are subject to a multitude of uncertainties and risks. Actual business development may therefore differ materially from what has been expected.

Beyond disclosure requirements stipulated by law, Infineon does not undertake any obligation to update forward-looking statements.

Due to rounding, numbers presented throughout this press release and other reports may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

All figures mentioned in this press release are preliminary and unaudited.
