AIROC™ CYW5557x Tri-Band Wi-Fi 6/6E + Bluetooth® 5.3 Combo

Robust, Secured Connectivity for IoT Applications

Infineon delivers market-proven AIROC™ Wi-Fi and Bluetooth® SoC combos with robust, reliable, and secure wireless connectivity. Infineon is the industry leader in Wi-Fi for the IoT with over 1 billion wireless devices in the field over the last 20 years, making AIROC™ the most deployed wireless IP in the industry. The CYW5557x product family consists of Wi-Fi 6/6E + Bluetooth® 5.3 combo devices including variants supporting SISO (1x1) or MIMO (2x2), dual-band 2.4/5 GHz, or tri-band 2.4/5/6 GHz in the same form factor to enable multiple end products in a single board design.

The AIROC™ CYW5557x single-chip device provides the highest level of integration for commercial and consumer IoT wireless systems, with integrated tri-band, 2x2 MIMO, IEEE 802.11ax WLAN MAC/baseband/radio, Bluetooth® 5.3 MAC/baseband/radio, and an integrated Power Management Unit. CYW5557x offers a host of differentiated feature sets including best-in-class range, robust network connection, smart coexistence, power efficiency, and multi-layer security to enhance the connectivity performance and improve the user experience.

It comes in a small form-factor package with minimal external components to drive down cost and allows for platform design flexibility in size, form, and function. The WLAN and Bluetooth® radios also include on-chip power amplifiers and low-noise amplifiers to further reduce the need for external components.

AIROC™ CYW5557x is enabled in Linux and Android with software pre-integrated on several third-party processors. Infineon wireless module partners, including Murata, AzureWave, Laird, and USI, enable fast time-to-market. For a complete list, please see the module selection guide on the AIROC™ Wi-Fi + Bluetooth® Combos product page or visit the AIROC™ CYW5557x product page.

**AIROC™ CYW5557x benefits**
- Extreme low latency from greenfield 6 GHz bands and virtual simultaneous dual-band feature for seamless audio and video streaming
- Range boost to ensure devices stay connected to a remote access point
- Enhanced network robustness features to ensure best streaming of video/audio in congested or overlapping network environments
- Advanced power saving features to maximize battery life
- Network offload feature to relieve the host processor and save system power consumption
- Multi-Layer security for protection of individual subsystems through whole product lifecycle
- Best-in-class Bluetooth® receive sensitivity and multiple optimized transmission options of 0 dBm, 13 dBm, and 20 dBm of output power for various applications
- AIROC™ Bluetooth® stack and example code to shorten Bluetooth® development cycle
- Shorten time to market with globally certified module partners
- Wi-Fi support in the Infineon Developer Community with direct access to online application support engineers

**Key features**

**Wi-Fi / WLAN features:**
- Wi-Fi 6/6E release 1 and 2 compliant
- MU-MIMO, OFDMA, 1024QAM, BSS Coloring, OMI, TWT
- Dual-band (2.4/5 GHz) or Tri-band (2.4/5/6 GHz) capable
- 5/6 GHz: 20-/40-/80-MHz, 1024QAM, 2x2 MIMO, up to 1.2 Gbps
- 2.4 GHz: 20-/40-MHz, 1024QAM, 2x2 MIMO, up to 574 Mbps
- 802.11ax STA and SoftAP modes
- Advanced power-saving features and offload features to conserve battery life
- Supports 802.11d/h/k/r/v/w/ai
- WPA3: AP and STA, Personal/Enterprise
- Encryption/decryption and authentication firmware, anti-rollback protection, and lifecycle management

**Bluetooth® features:**
- Bluetooth® 5.3 certification (Classic + LE)
- LE Audio for best audio quality
- Multiple Tx options: 0 dBm, 13 dBm, and 20 dBm
- Bluetooth® stack and example code to shorten Bluetooth® development cycle
- Shorten time to market with globally certified module partners
- Supports 802.11d/h/k/r/v/w/ai
- WP43: AP and STA, Personal/Enterprise
- Encryption/decryption and authentication firmware, anti-rollback protection, and lifecycle management

**Interfaces:**
- WLAN: PCIe, SDIO
- Bluetooth®: UART, PCM/I2S

**Coexistence:**
- Built-in advanced algorithms for Bluetooth®/WLAN coexistence
- 2-wire SECI for external third-party Bluetooth®/GPS/LTE/802.15.4 radios

**Packages:**
- FCBGA: 0.65 mm pitch for easy design
- WLCSP: 0.2 mm pitch for module design
- WLBGA: 0.35 mm pitch for compact size

**Temperature range:**
- –40°C to +85°C

**PRODUCT BRIEF**

**Key applications**

**Video and Audio**
Wireless speakers, voice assistants, surveillance cameras, home entertainment, video streaming adapters, drones, digital cameras, conference bridges, gaming consoles

**Commercial / Industrial**
Indoor/warehouse asset tracking hubs, industrial gateways for Wi-Fi and Bluetooth® enabled lights/sensors, base stations for wireless cameras. Mobile POS, AI-enabled edge devices, medical imaging machines, security systems, smart city, robots, mobile gateway

**Please note!**
This Document is for information purposes only and any information given herein shall in no event be regarded as a warranty, guarantee or description of any functionality, conditions and/or quality of our products or any suitability for a particular purpose. With regards to the technical specifications of our products, we kindly ask you to refer to the relevant product data sheets provided by us. Our customers and their technical departments are required to evaluate the suitability of our products for the intended application.

We reserve the right to change this document and/or the information given herein at any time.

**Warnings**
Due to technical requirements, our products may contain dangerous substances. For information on the types in question, please contact your nearest Infineon Technologies office.

Except as otherwise explicitly approved by us in a written document signed by authorized representatives of Infineon Technologies, our products may not be used in any life-endangering applications, including but not limited to medical, nuclear, military, life-critical or any other applications where a failure of the product or any consequences of the use thereof can result in personal injury.

**Additional information**
For further information on technologies, our products, the application of our products, delivery terms and conditions and/or prices, please contact your nearest Infineon Technologies office (www.infineon.com).
