

## Press Release

### **Infineon fulfills 600 children's wishes and helps in the region**

*Villach, Klagenfurt, Graz, Linz December 15, 2022* - With the "Christmas Wish Tree" campaign, Infineon employees have fulfilled the heart's desires of 600 children and young people from socio-educational institutions.

The 600 heartfelt wishes arrived at Infineon in the form of lovingly designed Christmas cards. The wishes ranged from card games and books to cuddly dolls and clothing. The Infineon team organized the Christmas wish campaign together with the socio-educational institutions Josefinum, Haus Antonius, Diakonie, Kinder- und Jugendhilfe Villach, SOS Kinderdorf Moosburg, Amica, Pro Juventute Graz and Linz. Each gift thus arrives exactly where it is eagerly awaited: with children and young people. The ceremonial gift handover took place today in the presence of Infineon Austria CEO Sabine Herlitschka.

#### **Fourth Christmas Wish Campaign**

The campaign took place for the fourth time at Infineon Austria. The high level of participation by employees at the Villach, Klagenfurt, Graz and Linz sites once again demonstrated how the company philosophy is truly lived by each and every one of them, and how 1200 children's eyes light up in the process.

#### **Rapid help during the storm disaster in Villach: Infineon supported with 50,000 euros**

As a regionally connected leading company, Infineon Austria promotes the quality of life locally and helps especially in crisis situations. For this reason, Infineon also provided rapid and immediate assistance during the severe weather disaster in the Villach region in the summer of 2022. Reconstruction activities were supported with a donation of 50,000 euros to the affected communities of Arriach and Treffen.

#### **Infineon Education Fund**

Since 2019, the Infineon Education Fund has also been running together with Caritas. Meanwhile, 105,000 euros are being used to finance three Caritas learning cafés in Villach, Spittal an der Drau and Graz-Lend. More than 75 children and young people thus receive free learning support. The Infineon team, some of whom also work as learning assistants, can thus not only bring real joy, but also provide support where it is urgently needed.

### **About Infineon Austria**

Infineon Technologies Austria AG is a group subsidiary of Infineon Technologies AG, a world-leading provider of semiconductor solutions that make life easier, safer and greener. Microelectronics from Infineon reduce the energy consumption of consumer electronics, domestic appliances and industrial facilities. They make a major contribution to the convenience, security and sustainability of vehicles, and enable secure transactions in the Internet of Things.

Infineon Austria pools competencies for research and development, production as well as global business responsibility. The head office is in Villach, with further branches in Graz, Klagenfurt, Linz and Vienna. With 5,461 employees from 79 countries (including 2,390 in research and development), in the financial year 2022 (ending in September) the company achieved a turnover of € 5.2 billion. With a research expenditure of 585 million euros, Infineon Austria is one of the strongest research companies in Austria.
