

Revision History

Revision	Date	Change comments
Prelim.		Presumably a copy of IRS2607D datasheet
01	30 Apr 09	Preliminary with input filter removed
02	02 Jul 09	Formatting of IRS2334 datasheet, sections copied and added from IRS26042D datasheet, parameters limits checked against test limits
03	13-Jul-09	Date and datasheet PD number added
04	18-Aug-09	Updated to reflect that integrated bootstrap diode works only with complimentary PWM. And also added "NOT recommended for trapezoidal motor control"
05	18-Aug-09	Released by Ramanan
06	21-Aug-09	Parameter temperature trend graphs updated, first page footer updated
07	30-May-11	Added Bootstrap fet limitation
