

MyICP

Documentation Platform For Microcontrollers

MyICP - Introduction

What is MyICP?

- **MyICP** or **My Infineon Collaboration Platform** is a portal through which you can access all the documentation related to Infineon's microcontrollers.
- While you may find plenty of details about Infineon microcontrollers on our official website, there are some confidential documents that require a Non-Disclosure agreement (NDA). These can be accessed through MyICP (*more about confidential and non confidential documents on the next slide*).

32-bit Microcontroller (MCU) subcategories on MyICP

- › AURIX™
- › TRAVEO™
- › PSoC®

How can I get access to MyICP?

Follow three simple steps (*from Slide 4-6*) to get access to all documentation on MyICP!

What documents can I access through MyICP?

› **AURIX™ Documentation:**

- AURIX™ TC2xx: Access to all TC2xx related information such as data sheet, delta sheets, target specs, user manuals, erratas, iLLDs, BCDL files, triboard manuals, firmware, application notes, training materials and more **(non-confidential)**
- AURIX™ TC3xx: Access to all TC3xx related information such as data sheet, delta sheets, target specs, user manuals, iLLDs, BCDL files, triboard manuals, firmware, application notes, training materials etc. **(confidential)**
- AURIX™ TC2xx & TC3xx HSM: Access to TC2xx & TC3xx related HSM specs, data sheets, errata, application notes and other safety documentation **(confidential)**
- AURIX TC4xx documentation: All TC4xx related documentation **(confidential)**

› **TRAVEO™ documentation:**

- Access to all TRAVEO™ related application notes, programming specs, safety material, FMEDA, errata, datasheets, technical reference manuals (TRM), flash programmer, IBIS model etc. **(public/confidential)**

› **PSOC® documentation:**

- Access to all PSOC® related application notes, programming specs, safety material, FMEDA, errata, datasheets, technical reference manuals (TRM), flash programmer, IBIS model etc. **(public/confidential)**

Documentation marked **as confidential** requires a Non-Disclosure Agreement (NDA)

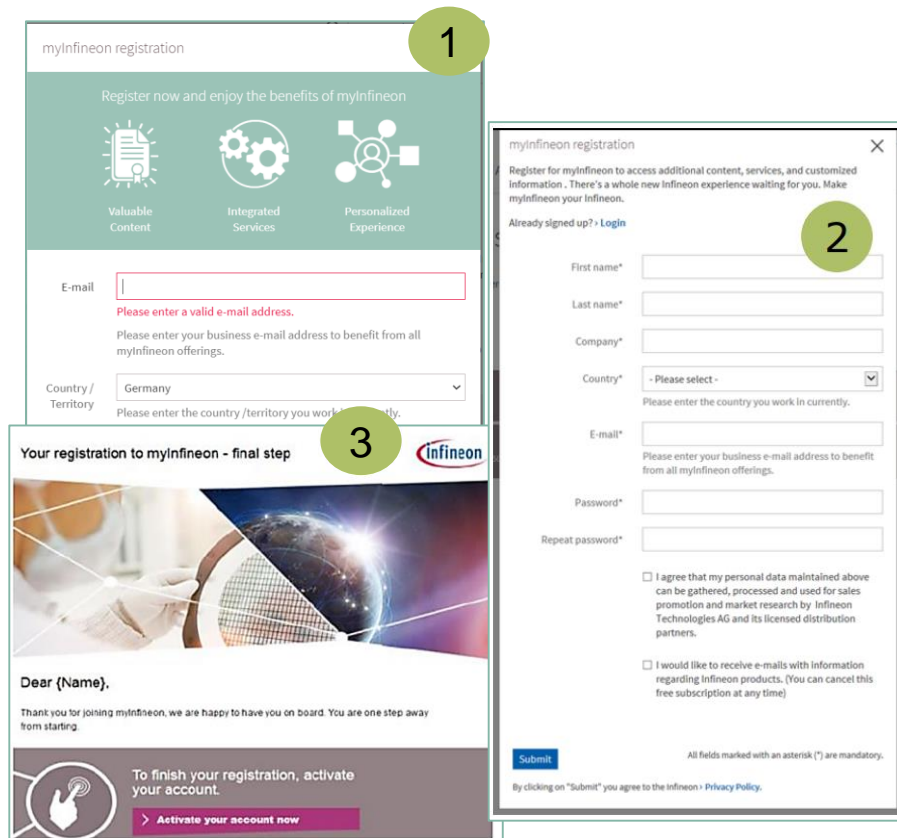

(Please go to *slide 8* to get information regarding how to get an NDA)

Step 1: Register on our website

In order to access MyICP, you need to sign up on our official website:

1. Go to click [here](#) and register yourself
2. Type in the necessary information in the registration form
3. Activate your account by clicking on the link in the e-mail sent to you

Note: You have to register with your **company/university email address**. We cannot give your private email address access to the material.

☐ I agree that my personal data maintained above can be gathered, processed and used for sales promotion and market research by Infineon Technologies AG and its licensed distribution partners.

☐ I would like to receive e-mails with information regarding Infineon products. (You can cancel this free subscription at any time)

All fields marked with an asterisk (*) are mandatory.

By clicking on "Submit" you agree to the Infineon > Privacy Policy.

Your registration to myInfineon - final step

3

infineon

Dear (Name),

Thank you for joining myInfineon, we are happy to have you on board. You are one step away from starting.

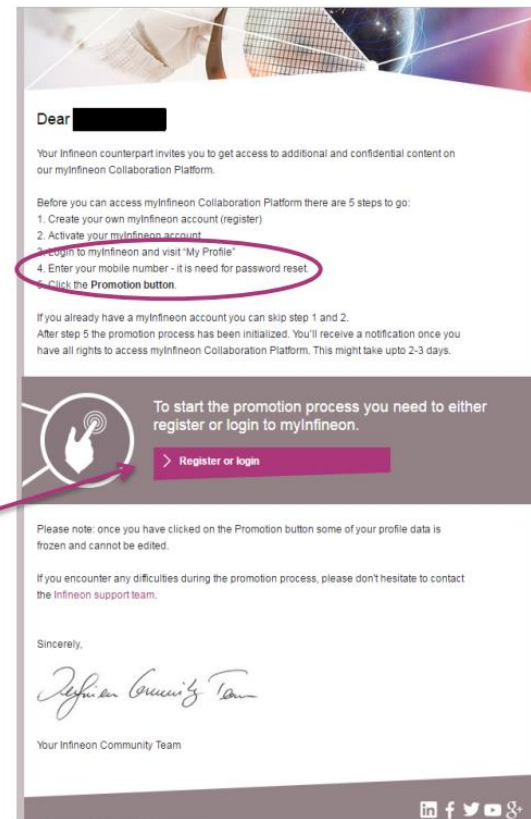

To finish your registration, activate your account.

[Activate your account now](#)

Step 2: Become a Promoted User!

Registering as a user is not enough - you need to be a **promoted user** in Infineon's network to access MyICP. How can you do that?

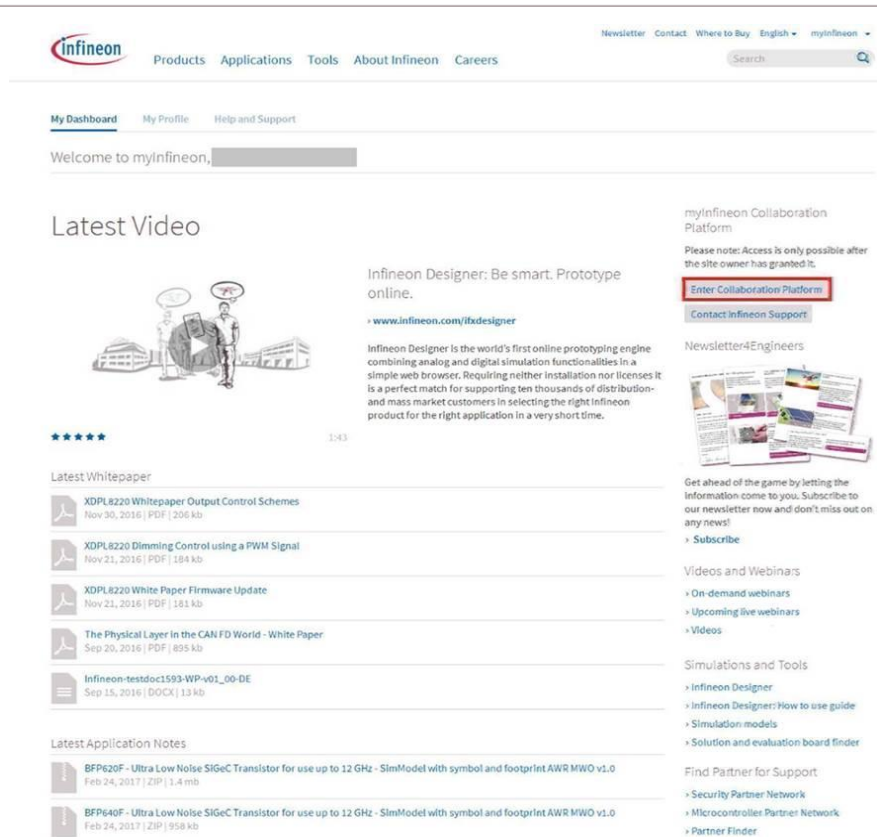

1. Send an e-mail to ***aurix@infineon.com*** and request access to the AURIX Customer Documentation
2. In response, you will receive an e-mail from us with further ***instructions*** (Check your Junk email too)
3. Please click the button: ***'Register or login'*** in the e-mail. In case you do not receive the e-mail or the button is not working, please log in to your account at our web site: www.infineon.com
4. Please ***follow the steps*** in order to finish the promotion process of your account.

Step 3: Get Access to the Required Documentation!

- › This step is only possible after Step 2, i.e. after your account has been successfully promoted. It requires you to wait till you get an email from us.
- › The email you receive from us will confirm your access to the required documentation and give you the link to access MyICP

If you want access to confidential information, please go to the **next slide** which has details regarding the Non Disclosure Agreement.

The NDA Process

What is an NDA?

- And **NDA** or **Non-disclosure Agreement** is a contract you sign with Infineon to officially accept the confidentiality of information made available to you. It includes:
 - The names of the parties to the agreement
 - The time period of the agreement
 - What constitutes confidential information
 - Appropriate uses of the information to be revealed
 - Other provisions

When do I need an NDA?

- An NDA is required for getting access to the following documentations:
 - AURIX™ TC3xx documentation
 - HSM documentation (all)
 - AURIX™ TC4xx documentation
 - Traveo™ Documentation
 - PSoC® Documentation

Step 4: How can I sign an NDA if I do not have one?

- If your company does not have a NDA with Infineon and you are interested in signing it with us, please add the following information in your **email**:
 - Exact company name (incl. legal form)
 - Contact person (Full name)
 - Contact Email Address
 - Contact Phone Number
 - Company Address (with postal code)

- If your company is a **Chinese company**, please add the following information in your email:
 - Company Name (In English)
 - *Company Name (In Chinese)*
 - *Company Reg. No*
 - Company Address (with postal code)
 - Company Profile

Once we receive the email with complete details regarding your company, we will forward your request to our legal team and get back to you as soon as the process is finished.
