

Product Brief

TRENCHSTOP™ IGBT6

650 V trench and field-stop IGBT for low power motor drives

Motor drives up to 1 kW are used in a wide variety of applications from home appliance fans and compressors to commercial sewing machines and pumps. The market for these products demands longer lifetimes, high reliability and high efficiency. Therefore these compact motors require power electronics with the lowest losses and best thermal performance.

The TRENCHSTOP™ IGBT6 family of discrete devices has been designed to meet these specific requirements of motor drives. It has been optimized for the lowest switching losses, especially important in systems with higher switching frequencies up to 30 kHz. Additionally the IGBTs are co-packed with the soft, fast recovery Rapid 1 anti-parallel diodes for the lowest total losses.

With a higher blocking voltage at 650 V, and short circuit rating, TRENCHSTOP™ IGBT6 is a key contributor to robust motor designs.

The devices are offered in TO-220 FullPAK packages for the required isolation, as well as DPAKs for a more compact, surface mount solution.

Key features

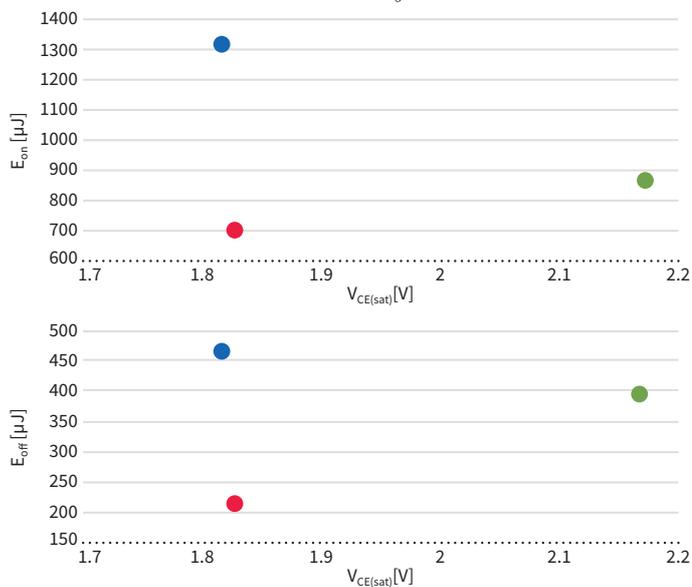

- > 650 V blocking voltage
- > Optimized for switching frequencies from 8–30 kHz
- > Lowest $V_{CE(sat)}$ and V_f
- > 3 μ sec short-circuit protection capability

Key benefits

- > Good thermal performance, especially at higher frequencies
- > Low losses to meet energy efficiency requirements
- > Increased design margin and reliability
- > Leading price/performance

600/650 V hard-switching trade-off $V_{CE(sat)}$ vs. E_{on} & E_{off}

$T_C = 150^\circ\text{C}$, $I_C = 15\text{ A}$, $R_g = 25\ \Omega$, $V_{GE} = 15\text{ V}$

- TRENCHSTOP™ IGBT6 IKA15N65ET6
- TRENCHSTOP™ IKA15N60T
- Gen5 IRGIB15B60KD1P

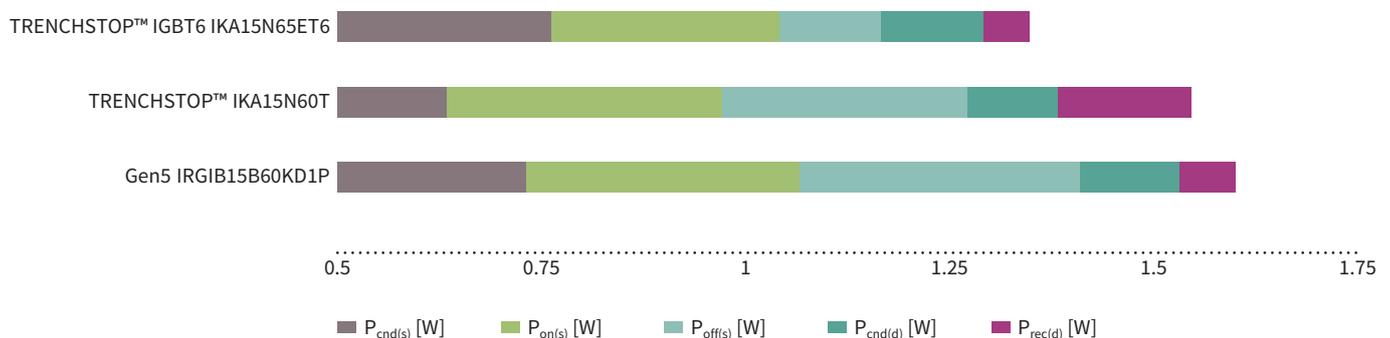

TRENCHSTOP™ IGBT6

650 V trench and field-stop IGBT for low power motor drives

- › Optimized for small drives requiring best in class efficiency
- › Lowest switching losses for better heat management and easier design-in
- › Up to 20 percent reduction in total losses

Power losses [W]

550 W @ $T_A = 25^\circ\text{C}$, 10 kHz, same dv/dt

TRENCHSTOP™ IGBT6 portfolio overview
