

WLC1115 MP-A11 15-W wireless power transmitter (REF_WLC_TX15W_C1) release notes

About this document

Scope and purpose

Thank you for your interest in the WLC1115 MP-A11 15-W wireless power transmitter (REF_WLC_TX15W_C1) reference solution. This design is Qi 1.3.2 certified (Qi ID: [12383](#)) and supports charging up to 15 W. The reference board demonstrates the capabilities and features of the Infineon WLC1115 wireless charging transmitter controller. WLC1115 is a highly integrated wireless power transmitter with an integrated USB Type-C Power Delivery (PD) controller, certified for USB PD 3.1 specification (USB-IF TID: 7531).

This document lists the reference board package contents, installation requirements, documentation, limitations, and known issues.

Intended audience

This document is intended for users of the REF_WLC_TX15W_C1 reference solution.

Table of contents

About this document.....	1
Table of contents.....	1
1 Release information	2
1.1 Reference solution contents.....	2

Release information

1 Release information

1.1 Reference solution contents

The WLC1115 15-W wireless power transmitter reference board package contains the following:

- WLC1115 15-W wireless power transmitter reference board (REF_WLC_TX15W_C1)
- USB-C power adapter
- USB Type-C cable
- Qi-compatible receiver
- Host Programming Interface (HPI) dongle for programming/debugging
- USB micro-B cable
- Quick start guide
- Four jumper wires

Note: The following items may be required for evaluating the wireless power transmitter capabilities of the reference board. Note that these are not included in the reference board package.

- Qi-compatible mobile phone
- PC running Windows 10 or higher to run Infineon Wireless Charging Configuration Utility

1.2 Documentation

Download the documents and hardware design files from the reference board [webpage](#).

The documents include:

- Quick start guide
- Test report
- User guide
- Release notes (*this document*)

The hardware design files package includes:

- Schematics
- Bill of materials (BOM)
- Layout files

For more details on installation of software tools, see the “WLC1115 MP-A11 15-W wireless power transmitter (REF_WLC_TX15W_C1)” user guide.

WLC1115 MP-A11 15-W wireless power transmitter (REF_WLC_TX15W_C1) release notes

Release information

1.3 Reference solution revision

This release is the first revision (Rev **) of the REF_WLC_TX15W_C1 reference solution. This revision of the solution uses REV04 of the REF_WLC_TX15W_C1 board. The board part number (600-60628-01) and revision (REV04) are marked on the top silkscreen of the board as shown in [Figure 1](#).

Figure 1 Identifying the reference board part number and revision

1.4 Known limitations and issues

Issue: The Product Unit Certificate stored in the secure memory of REF_WLC_TX15W_C1 reference board may not contain the Qi ID intended for the REF_WLC_TX15W_C1 reference board (which is 12383).

Note: This issue is applicable to two batches of boards with following serial numbers:

- AJ19-2210 XXX
- AJ20-2214 XXX

Locate the reference board serial number at the location shown in [Figure 2](#).

Figure 2 Identifying the board serial number

Workaround: N/A. This issue does not impact the Qi 1.3.2 authentication functionality.

Fix plan: This issue will be fixed in the future builds of REF_WLC_TX15W_C1 reference board.

Release information

1.5 Silicon datasheet

Download the latest version of the WLC115 datasheet from the from the reference board [webpage](#).

IMPORTANT NOTICE

The information given in this document shall in no event be regarded as a guarantee of conditions or characteristics ("Beschaffungsgarantie").

With respect to any examples, hints or any typical values stated herein and/or any information regarding the application of the product, Infineon Technologies hereby disclaims any and all warranties and liabilities of any kind, including without limitation warranties of non-infringement of intellectual property rights of any third party.

In addition, any information given in this document is subject to customer's compliance with its obligations stated in this document and any applicable legal requirements, norms and standards concerning customer's products and any use of the product of Infineon Technologies in customer's applications.

The data contained in this document is exclusively intended for technically trained staff. It is the responsibility of customer's technical departments to evaluate the suitability of the product for the intended application and the completeness of the product information given in this document with respect to such application.

For further information on the product, technology, delivery terms and conditions and prices please contact your nearest Infineon Technologies office (www.infineon.com).

WARNINGS

Due to technical requirements products may contain dangerous substances. For information on the types in question please contact your nearest Infineon Technologies office.

Except as otherwise explicitly approved by Infineon Technologies in a written document signed by authorized representatives of Infineon Technologies, Infineon Technologies' products may not be used in any applications where a failure of the product or any consequences of the use thereof can reasonably be expected to result in personal injury.
