Product brief

XMC4800 IoT Amazon FreeRTOS connectivity kit WiFi
Explore XMC4800 microcontroller based on ARM® Cortex®-M4 in the IoT cloud

The XMC4800 IoT Amazon FreeRTOS connectivity kit with EtherCAT® utilizes Infineon’s industry leading XMC ARM® Cortex®-M4 microcontroller in combination with WiFi Click-Board module from Mikroelectronica. The XMC4800 IoT Amazon FreeRTOS connectivity kit with EtherCAT® is designed to evaluate the capabilities of the XMC4800 microcontroller especially in IoT cloud application solutions, adding the EtherCAT® slave features and can be used with a wide range of development tools including Infineon’s free of charge Eclipse based IDE, DAVE™, Amazon FreeRTOS and much more.

Key features

- XMC4800-F100 MCU based on ARM® Cortex®-M4 at 144 MHz
- EtherCAT® slave controller, 2 MB flash and 352 KB RAM
- Mikroelectronica WiFi Click module included
- EtherCAT® slave node (2 EtherCAT® PHY and RJ45 Jacks)
- 24 V ISOFACE™ 8-ch inputs and 8-ch outputs CAN transceiver
- CAN transceiver

Key benefits

- Full software support of AWS Amazon FreeRTOS
- Combined MCU with EtherCAT® slave application
- Arduino compatibility
- SEGGER debugger
- mikroBUS™ ClickBoard interface
- CAN connectivity
- Full software DAVE™ examples

The block diagram shows the main components of the XMC4800 IoT Amazon FreeRTOS connectivity kit WiFi and their interconnections.

The main building blocks are:

› XMC4800 microcontroller in a LQFP-100 pin package
› 2 EtherCAT® PHY with 2 RJ45 plugs
› 1 mikroBUS™ connector (ClickBoard Mikroelektronica for WiFi connectivity)
› Arduino connector
› CAN transceiver with SUB 9 connector

Please note!

This document is for information purposes only and any information given herein shall in no event be regarded as a warranty, guarantee or description of any functionality, conditions and/or quality of our products or any suitability for a particular purpose. With regard to the technical specifications of our products, we kindly ask you to refer to the relevant product data sheets provided by us. Our customers and their technical departments are required to evaluate the suitability of our products for the intended application.

We reserve the right to change this document and/or the information given herein at any time.

Additional information

For further information on technologies, our products, the application of our products, delivery terms and conditions and/or prices, please contact your nearest Infineon Technologies office (www.infineon.com).

Warnings

Due to technical requirements, our products may contain dangerous substances. For information on the types in question, please contact your nearest Infineon Technologies office.

Except as otherwise explicitly approved by us in a written document signed by authorized representatives of Infineon Technologies, our products may not be used in any life-endangering applications, including but not limited to medical, nuclear, military, life-critical or any other applications where a failure of the product or any consequences of the use thereof can result in personal injury.
