

Infineon IoT Security Circle

Room A62

Agenda day 1

Tuesday 8 th November		
09.00 - 10.00		Opening of rooms
Securing business in the IoT (session 1)		
10.00 - 10.30		Welcome by head of embedded security solutions Thomas Rosteck
10.30 - 11.00		Key note by David Leporini: The IoT meditation – Five security trends to focus the mind
11.00 - 11.30		Presentation: IoT security – What the industry really needs
11.30 - 12.15		Panel discussion: Security challenges in the IoT ecosystem
12.15 - 12.45		Tech talk: End-to-end security based on Visible Things™ platform
12.45 - 13.15		Presentation: Understanding basic use cases and cryptography for IoT applications
Implementing security in the IoT (session 2)		
13.30 - 14.00		Tech talk: Security for automotive sensor
14.00 - 14.30		Presentation: The key-concept! – What went wrong with millions of wireless car keys?
14.30 - 15.00		Tech talk: Security for Industry 4.0 solutions
15.00 - 15.30		Presentation: Securing IoT devices with secure elements
15.30 - 16.00		Tech talk: Secure remote firmware updates and ECU integrity protection with OPTIGA™ TPM 2.0
16.00 - 16.30		Presentation: Infineon security solutions for FPGAs in IoT devices
16.30 - 17.00		Networking session
17.00 - 18.00		Closed press event

Infineon IoT Security Circle

Room A62

Agenda day 2

Wednesday, 9 th November		
09.00 - 10.00		Opening of rooms
Protecting IoT infrastructure (session 3)		
10.00 - 10.30	The logo for WIBU SYSTEMS, with "WIBU" in a large, bold, blue font and "SYSTEMS" in a smaller, blue font below it.	Presentation: Secure license management for XMC4500 microcontrollers
10.30 - 11.00	The logo for GlobalSign, featuring a blue globe icon and the text "GlobalSign" in blue, with "GMO INTERNET GROUP" in smaller text below.	Tech talk: Strong device identity with TPMs and PKI
11.00 - 11.30	The logo for WIBU SYSTEMS, with "WIBU" in a large, bold, blue font and "SYSTEMS" in a smaller, blue font below it.	Tech talk: License management with TPM powered by CodeMeter
11.30 - 12.00	The logo for GlobalSign, featuring a blue globe icon and the text "GlobalSign" in blue, with "GMO INTERNET GROUP" in smaller text below.	Presentation: How IoT infrastructure can be protected by strong device identity management
12.00 - 12.30	The logo for MOCANA, with the word "MOCANA" in a blue, sans-serif font.	Presentation: Simplifying IoT security using hardware-based trust
12.30 - 13.30		Networking session
Safeguarding IoT applications (session 4)		
13.30 - 14.00	The logo for escrypt, with "escrypt" in a blue, lowercase font and "Embedded Security by ETAC" in smaller text below.	Presentation: A holistic approach to embedded security
14.00 - 14.30	The logo for IKV, featuring a stylized blue "K" with "IKV" in smaller text below.	Tech talk: Embedded security for Smart Homes
14.30 - 15.00	The logo for escrypt, with "escrypt" in a blue, lowercase font and "Embedded Security by ETAC" in smaller text below.	Tech talk: Secured software updates for Industry 4.0
15.00 - 15.30	The logo for IKV, featuring a stylized blue "K" with "IKV" in smaller text below.	Presentation: iBadge - securing your smart and connected life
15.30 - 16.00		Networking session
16.00 - 16.30		Closing
