# All Informations are available on Infineon.com

[www.infineon.com/blockchain](http://www.infineon.com/blockchain)

The image shows a screenshot of the Infineon website's blockchain section. At the top is the Infineon logo and a navigation menu with links: Products, Applications, Tools, About Infineon, Discoveries, and Careers. Below the menu is a large banner featuring a man in a blue shirt working on a laptop. Overlaid on the image are various digital icons representing blockchain and security, such as a padlock, a globe, a server rack, and a network diagram. To the right of the man, the text 'Meeting blockchain's security challenges' is displayed in white on a dark purple background. Below this, a white box contains the text: 'Infineon's Blockchain Security 2Go starter kit provides a fast and easy way to build best-in-class security into your blockchain system design.' At the bottom left of the banner, there is a breadcrumb trail: '> Home > Products > Blockchain'. Below the banner, the main heading 'Securing blockchain applications' is shown on the left, and 'Blockchain Security 2Go' is shown on the right.
