# Parking at the Villach site

(Status 05.02.2021)

For suppliers, the following parking facilities are currently available at the Villach site marked in red in the following graphic:

# Current entry requirements

Austria (as of 30.03.2021)

## **Mandatory testing for commuters & registration upon entry into Austria:**

Based on the [COVID-19 entry regulation amendment](#) of the Austrian Ministry of Social Affairs published on 30.03.2021, the following regulations for the entry to Austria apply from Thursday, 01.04.2021:

- › All persons, including commuters, from non-EU countries as well as from the high-incidence countries Bulgaria, Estonia, France, Italy, Malta, Poland, Sweden, Slovakia, Slovenia, Czech Republic, Hungary and Cyprus must present a negative PCR or antigen test when entering Austria. The test result must not be older than 72 hours.
- › In addition, registration via [the electronic "Pre-travel clearance" form](#) is mandatory prior to entry. In the case of daily commuters, the registration must be renewed when the data changes, but at the latest every 28 days.
- › Travelers from other EU countries to Austria must present a negative PCR or antigen test result, which must not be older than seven days.

Registration for free tests is possible via [www.oesterreich-testet.at](http://www.oesterreich-testet.at).

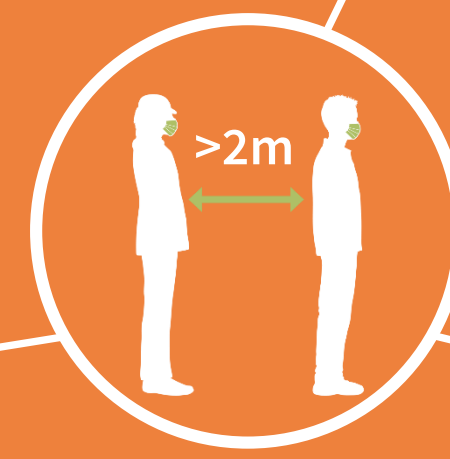

If proof of a negative test result is issued abroad, it must be in German or English

In principle, the costs for the test are to be borne by each commuter him/herself. We offer free COVID tests for contractor employees entering Austria for an assignment at the Villach site: Appointment booking is possible by calling 0043(0)5 1777 2404.

# Current COVID 19 measures

(Status: 30.03.2021)

[Video: Overview of the COVID measures at Infineon Austria](#)

**Please observe the following measures and hygiene guidelines for the containment of coronavirus at Infineon Austria:**

## Minimum distance of two meters

The minimum distance of two meters applies in general. This also applies to the workplace and workstations. Passenger elevators may only be used individually. The minimum distance of two meters also applies outdoors and therefore also in the smoking areas. Please strictly observe the distance, especially in the break rooms and coffee kitchens. Please also strictly adhere to the permitted maximum occupancy of the smoking areas on site.

## General MNS obligation, partial FFP2 mask obligation

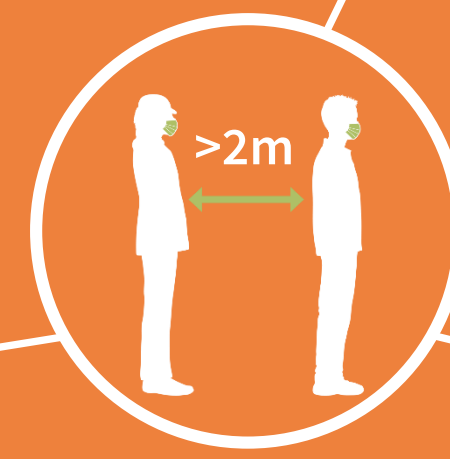

In enclosed spaces in workplaces, maintaining the minimum distance of two meters and wearing a mask covering the mouth and nose area is mandatory. Thus, the MNS obligation applies in all Infineon Austria buildings, including at the employee's own workplace. If the minimum distance of two meters is not maintained, the mask obligation also applies outdoors with immediate effect.

According to legal regulations, the wearing of an FFP2 mask (without valve) is additionally mandatory at the Infineon Austria plant premises in the following areas:

- › In the entire building 05
- › In the locker rooms and sit over
- › In all areas where the new minimum distance of two meters cannot be maintained, it is recommended to wear an FFP2 mask

# Current COVID 19 measures

(Status: 30.03.2021)

Infrastructure Location Villach

**FFP2 masks are mandatory in the entire building 05!**

## **Break rooms**

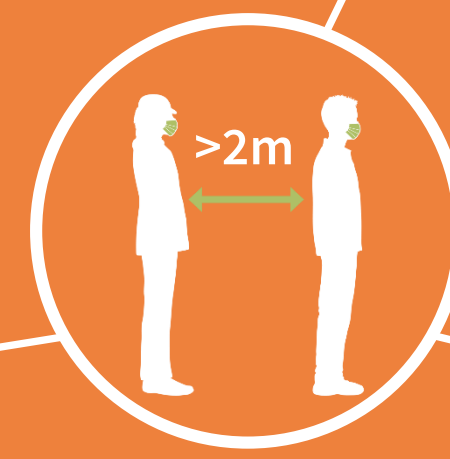

We are aware of the fact that especially during the break times the rooms are currently very limited due to the limited occupancy. Nevertheless, we ask you to strictly adhere to the minimum distance of two meters and the mask requirement, as we have already had cases of infection in the break rooms due to non-compliance. Especially if you drink or eat something, please keep the two meter distance for your own health!

We also request that you consistently adhere to the maximum occupancy and minimum distance in the smoking areas.

## **Cafeterias**

Please note that CaFETeria and Café Ella will be closed until further notice.

**Please help and also make your employees aware if the measures are not implemented accordingly.**

# Current COVID 19 measures

(Status: 30.03.2021)

## What to do in case of an infection or a suspected case?

In case of a suspected Covid 19 infection of employees of your company working at one of the Infineon Austria sites, we therefore request your **immediate notification to our e-mail address: [covid-notification-for-suppliers-aut@infineon.com](mailto:covid-notification-for-suppliers-aut@infineon.com)**.

## Regular hygiene measures

Continue to pay increased attention to personal hygiene:

- › Frequent hand washing
- › Do not reach into the face
- › No handshake
- › Coughing and sneezing into the crook of the arm
- › Ventilate the premises sufficiently.
- › Please check your personal health status daily.
- › Carpooling is to be avoided.
